Mission of Hospital Ship Explained to Methodists

Efforts of the Hospital Ship Hope to bring the skills and techniques developed by the American medical profession to the people of other nations were explained to members of the Riviera Methodist Church at a special Lenten service last Wednesday.

Dr. Margaret Ann Storkan, who served as a dermatologist consultant aboard the SS Hope, presented the program, the third in a series of seven Wednesday services.

Dr. Storkan served aboard the SS Hope in Peru in 1963, in Ecuador in 1964, in Guinea in 1965, and in Nicaragua in 1966.

The hospital ship not only provides treatment and assistance to persons who need medical aid during its visits, but shares its "knowledge and skills" with medical personnel in the host nations.

"Guided by the principle of helping people to help themselves, Hope meets the needs of human dignity and leaves behind a legacy of good health and good will," Dr. Storkan said.

Name Chairman

Mrs. Thomas Reddin of Westchester, wife of the newly appointed Los Angeles police chief, has been named chairman of the awards committee for Centinela Valley, South Bay district of the American Cancer Society.

Dr. Storkan said.

the best recipe for folks newly moved.

Take one phone call (or coupon below), add hostess with baskets of gifts and information about the city, stir in genuine hospitality, and you'll have a generous and delightful welcome. Just phone

Cellist, Pianist To Play

Cellist Gabor Rejto and pianist Adolph Baller will be featured in the third concert of the South Bay Chamber Music Society's current series.

The concert is scheduled at 8:15 p.m. Saturday at the Mira Costa High School Auditorium.

Tickets, at \$2.50 for adults, may be purchased at the door. Reservations may be obtained by contacting Mrs. Phillip Karr, president of the South Bay Chamber Music Society. Student tickets are \$1 each.

Saturday's program will include sonatas by Bach, Beethoven, Brahms, and Debussy, Mrs. Karr said.

Rejto is head of the string department at the University of Southern California School of Music. He has traveled throughout the nation and in Europe as a solo performer and with the widely acclaimed Alma Trio.

Baller, who also has appeared with the Alma Trio, most recently was featured as a soloist with the San Francisco Symphony.

A 20-Hour Ride

Nursing Dolphin Makes Coast-to-Coast Flight

A baby dolphin still in the nursing stage has been flown from Marineland of the Pacific across the nation for the first time.

William F. Monahan, executive vice president of Marineland of the Pacific, said the baby dolphin, named Skipper, was flown from Marineland Studios, near St. Augustine, Fla., to its new home at Marineland, along with its mother and six other dolphins.

The youngster, named Skipper, was put in the tank with its mother in Marineland's Whale and Dolphin College. There the highly intelligent ocean mammal will be trained to become a star some day in the dolphin games presented at the oceanarium several times daily.

Skipper made the 3,000-mile trip under the expert care of Ray Cribbs, director of training at Marineland, and three men from Marineland Studios — Cecil Walker, assistant to the manager, Dave Nelson, head diver, and Don Germaine, superintendent.

Marineland Curator John Prescott explained that the 20-hour flight was possible because dolphins are air-breathing, warm-blooded animals. Dolphins and small whales have been kept out of water by Marineland of the Pacific for as long as 50 hours at a time.

Skipper joins two other baby dolphins at Marineland — Sandy, born Sept. 29, 1965 and Salty, born Aug. 29, 1966.

"We know that baby dolphins often will go for long periods without eating, even when they're swimming with their mothers," Prescott said. "But under no conditions could the two animals be separated during the critical nursing period of the baby's development."

"The baby dolphin, almost a year old, now is starting to eat some solid food in the form of fish, as well as continuing to nurse."

SAFE VOYAGE... Skipper, a baby bottlenose dolphin less than a year old, rests comfortably with his mother at the end of a 3,000-mile flight from Marineland Studios in St. Augustine, Fla., to Marineland of the Pacific, Los Angeles. Both mother and baby, still nursing, are doing fine at Marineland.

Students Earn Top Art Awards

Volanda Dobrovolskis, a student at Bishop Montgomery High School, has been awarded a gold key and a blue ribbon in the 21st annual Scholastic Art Awards competition.

More than 300 Southland high school students were honored in the competition, which is sponsored locally by Bullock's Downtown.

Redondo Union High School was in second place among schools. Redondo students earned 15 gold keys and nine blue ribbons.

Greg Shaw of Mira Costa High School was one of five students whose work was judged "best of show" and Edward Armstrong, Redondo Union High School, earned three gold keys and two blue ribbons.

The winning works will be displayed at Bullock's Downtown through March 11. A total of 193 pieces will be sent to New York City to compete for National Scholastic Art Awards.

Oppose New Tax

Members of the Gardena City Council have adopted a resolution opposing proposed increases in state gasoline taxes to finance the purchase of additional freeway rights-of-way.

Doctors quit smoking

CHICAGO — According to a recent survey, 32% of American doctors do not smoke. Many quit recently, according to the Anti-Tobacco Center of America, to reduce the risk of cancer.

Many doctors gave up smoking without straining their will power, thanks to a new tablet which helps to progressively eliminate the need for nicotine and as a result, the desire to smoke. Less than 2% of the 150,000 people who tried this tablet reported they still smoke.

Smokers interested in receiving information (street contact) are invited to contact directly the Anti-Tobacco Center of America, Dept. 106E, 366 Fifth Avenue, New York 1, New York.

It is sufficient to send your name and address; but a post card will do.
