NOTICE OF BIDDING
 Notice is hereby given that sealed bids will be received at the office of the Chief Engineer of the Los Angeles County Flood Control District, Room 110, Alhambra Street, Los Angeles, California, 90012, up to 11:00 a.m. Friday, April 7, 1967, and then will be publicly opened and read in Room 111 at the above address for the CONSTRUCTION OF TORRANCE PROJECT, No. 1108, 1964 STORM DRAIN BOND ISSUE, IN THE CITY OF TORRANCE, CALIFORNIA.

The work is covered by 2 alternate base proposals (Proposals 1 and 2) and additional proposals that may be added to the base proposal awarded depending on availability of funds.

Bids must be submitted for either of the 2 base proposals and bids may be submitted for each of Proposals 3 and 4. Bids may be submitted on all proposals.

Proposal 1 includes, but is not limited to, the construction of 8,360 linear feet of main line reinforced concrete pipe conduit, varying in size from 106-inch to 27-inch diameter; 1,400 linear feet of reinforced concrete connector pipe, varying in size from 36-inch to 18-inch diameter; 50 linear feet of corrugated metal pipe, varying in size from 48-inch to 6-inch diameter; and appurtenant work.

Proposal 2 includes, but is not limited to, the construction of 1,260 linear feet of main line reinforced concrete pipe conduit, varying in size from 75-inch to 24-inch diameter; 1,400 linear feet of reinforced concrete connector pipe, varying in size from 36-inch to 18-inch diameter; 50 linear feet of corrugated metal pipe, varying in size from 48-inch to 6-inch diameter; and appurtenant work.

Proposal 3 includes, but is not limited to, the construction of 1,260 linear feet of main line reinforced concrete pipe conduit, varying in size from 75-inch to 24-inch diameter; 1,400 linear feet of reinforced concrete connector pipe, varying in size from 36-inch to 18-inch diameter; 50 linear feet of corrugated metal pipe, varying in size from 48-inch to 6-inch diameter; and appurtenant work.

Proposal 4 includes, but is not limited to, the construction of 800 linear feet of main line reinforced concrete pipe, 66-inch and 43-inch diameter; 110 linear feet of reinforced concrete connector pipe, varying in size from 48-inch to 24-inch diameter; 50 linear feet of reinforced concrete corrugated metal pipe; 270 linear feet of 8-inch diameter vitrified clay pipe sewer; and appurtenant work.

Appurtenant work includes, but is not limited to, construction of catch basins, manholes, transition structures, junction structures, local depressions, inlet structures, fencing, jacking across State Highways, and other work.

Quantities quoted above are approximate.

The bidder must obtain excavation permits for test hole borings within 100 feet of way from the City of Torrance prior to the award of contract.

Each bid must be accompanied by a certified or cashier's check or bid bond in the amount of 10 percent of the amount of the bid, payable to Los Angeles County Flood Control District. The bidder warrants that the bid, if awarded the contract, enter into a satisfactory agreement with the County Flood Control District to award and furnish a bond in the amount of at least 100 percent of the amount of the accepted bid for the faithful performance of the work in accordance with the contract and specifications therefor and a bond in the amount of fifty (50) percent of the amount of the bid to guarantee the payment of the materials and laborers. Each bid must be made on the proposal blanks prepared by the District. The bidder's name is on file with the County Clerk of Los Angeles County as an approved and bonded contractor.

The right is reserved to reject any or all bids not suited, in the judgment of the Board of Supervisors, to the best interests of the District.

Further information will be furnished and sets consisting of proposal blanks, drawings, and copies of the specifications may be obtained at the office of the Chief Engineer of Los Angeles County Flood Control District, Room 110, Alhambra Street, Los Angeles, California, upon payment as follows:

If drawings and specifications are picked up at the District's office, the purchase price is \$2.60 for each set which must be paid at the time the set is picked up. A mail address must be left with the District with the proposal and the bidder agrees to pay the purchase price of the set if it is not picked up. Please note that upon payment of the appropriate purchase price the drawings and specifications become the property of the purchaser and are not to be returned to the District for refund.

If drawings and specifications are requested by mail the purchase price is \$2.60 for each set and the request must be accompanied by a check or money order in full payment for the number of sets desired. A return address must be furnished with such request which the sender agrees to be sufficient to reach him. Please note that upon payment of the appropriate purchase price the drawings and specifications become the property of the purchaser and are not to be returned to the District for refund.

The above prices include sales tax.

PREVAILING WAGE RATES
 The Board of Supervisors of Los Angeles County Flood Control District has ascertained the prevailing rates of wages in dollars, based on a working day of eight hours, for each craft or type of workman or mechanic needed to execute any construction contract which may be awarded by the County Flood Control District, to be as follows and as detailed below.

Except as otherwise specifically provided for painter classifications, the rates of per diem wages for each of the prevailing classifications of work shall be the hereinafter set forth prevailing rates of hourly wages plus the hourly equivalent of any employer payments for health and welfare benefits similar to those provided for by the County Flood Control District.
