

Kanine Korner

By Francis X. Lohmann

You, know, dogs too, get in regards to this familiar spring fever. It is most interesting to note that in all the lands all over the earth, the return of warming sunshine brings the pleasing Spring fever.

Dogs, too, are its willing victims. Dogs find increasing delight in their daily vago-bonding. The plain soft earth after many months of hard core cold, presents myriads of fresh new born smells and as any one who loves dogs can tell you, the hors d'oeuvres of a canine menu are the multitude of smells awaiting detection by the dog's nose in every spot and space.

The paws of the dog itch to be soothed by digging in the once-again soft ground of Springtime.

I do hope my readers will keep this bit of admonition in mind and act accordingly

look up and see that beloved little 4-legged guy of yours busily tearing up your neighbor's lawn, then all I can suggest to you as an alternative is to quickly call your dog and just as fast hide your self before your neighbor spots you from the front window — and walk nonchalantly like you never owned a dog in your life — for dogs will be dogs, especially in the springtime.

BOWSER BROWSINGS: — Two all breed dog shows and obedience trials hovering on the canine horizon for this upcoming weekend. Sun Maid Kennel Club of Fresno goes into action, Saturday at Fresno County Fairgrounds in Fresno and the following day, Sunday, finds the Kern County Kennel Club basking in the bow wow spotlight at the Kern County Fairgrounds in Bakersfield. Both are unbeneched events. . . . Doberman Pinscher entries close April 10 for the big Doberman Pinscher Specialty Show to be presented by the California Sierra Doberman Pinscher Club, April 29 at the Orange

Empire Club House in Fontana. For further info, premium lists and entry forms, write Mrs. Virginia Lee Sweem, P. O. Box 2155, Pomona, Calif. . . . Actor Jim Hutton is an avid Bedlington Terrier fancier. Nick Adams goes for the German Shepherd. And Rudy Vallee favors the Poodle. . . . Cake, candy and other in between meals snacks and tidbits are not so harmful in themselves. The trouble is they contain little or no nourishment which a dog can utilize, and they spoil his appetite for less exciting foods, necessary for his good health and condition.

AND WHILE in the vain of food values I might add that vitamins A, vitamin B1, vitamin D and niacin are the four most important vitamins in your dog's daily diet. . . . Many vets now believe that certain respiratory ailments can be transmitted to dogs by their human masters. It is generally a sound idea to be ever so careful not to cough or sneeze in your dog's face should you be suffering with

the sniffles. . . . Kanine Korner starts with the March issue of the nationally circulated Popular Dogs Magazine as a regular monthly feature. Popular Dogs, one of America's foremost and time-honored publications dedicated to dogs offers everything doggie for the dog lover. Popular Dogs Magazine is located at 2009 Ramstead St., Philadelphia, Pa. Subscriptions are still only \$5 per year. . . . Did you hear the one about the newly made millionaire who thought so much of his dog that he bought him a boy for Christmas. . . . I think that every family should have a dog: its like having a perpetual baby. He's the plaything and crony of the entire household and greater love than that dispensed by your dog would be impossible to find. Remember this — no one is truly Christian unless his dog is better off for it. And that's for doggone sure!

BREED OF THE Week: — Samoyed. . . . The Samoyed gets his name from the partly nomadic, party settled regions of northern Siberia. For many centuries the Samoyed has been the faithful servant of his primitive owners. His duties have been that of sled dog, guard dog and shepherd for the herds of reindeer.

The Samoyed is highly valued by his native owners is definitely evidenced by the fact that during extreme cold weather the dogs are allowed to sleep inside the tents with their masters, a mark of great esteem, indeed, for most primitive people believe that there is just one place for a dog, outside, no matter how cold.

As a sled dog, the Samoyed is a good-natured worker. Explorers of both Polar regions have used the breed and found them energetic and tireless.

THE SAMMY, as he is affectionately nicknamed, is by nature a polite dog. His pleasant disposition is advertised by a smiling facial expression and fast response to attention. If the adjective glamorous can be applied to a dog, the

Samoyed is entitled to it, for his white coat, dark understanding eyes and sweet disposition make him an eye-catching beauty.

The Samoyed Club of America have done much to popularize this great breed to the public. The Samoyed tips the scales at about 55 pounds and in height 21 inches.

Listen to Francis X. Lohmann's radio version of Kanine Korner, Monday Through Friday at 4:30 p.m. over station KTYM 1460 KCS.

MARCH 29, 1967

PRESS-HERALD B-5

Board Endorses Dual Jury Plan

Supervisor Kenneth Hahn, chairman of the county's Courts Committee, today urged passage of legislation which would make possible the consolidation of Superior and Municipal Court jury systems.

Samoyed is entitled to it, for his white coat, dark understanding eyes and sweet disposition make him an eye-catching beauty.

The Samoyed Club of America have done much to popularize this great breed to the public. The Samoyed tips the scales at about 55 pounds and in height 21 inches.
