Expensive Clothes Taken By Quick Moving Thieves

Quick moving burglars took approximately 110 women's suits valued at \$14,300 from I. Magnin & Co. late Thursday night and escaped before police reached the store. Thieves broke into the store through a door at the side of the building and hurriedly emptied three racks, adjacent to the door, which contained expensive suits, said police. Torrance police were alerted to the burglary by a call from an alarm service which noted the illegal entrance at approximately 11 p.m. Lt. R. Wright, Torrance police, said that the burglars had less than five minutes to enter the store and carry the merchandise to a waiting vehicle. He said that this type of merchandise would be difficult to dispose of in this area but that the thieves could sell the clothes in another area. Although no suspects have been arrested, police said they were working on several possible leads that would recover the merchandise.

SOUTH BAY

CITIZEN OF THE MONTH

This month, an estimated 70,000 high school and college students throughout California will have reason to be grateful to Jerry Richardson.

As a teenager, Jerry was concerned about the apparent lack of opportunity for young people to participate in a rewarding and meaningful way in the development of their communities. The Youth Employment Service, now in its 12th year of providing temporary and permanent jobs for youth, is the result of six years of personal dedication to creating that opportunity. Jerry, and a host of helpful friends and officials, can take pride in the realization of their hopes for a local community project which today has achieved the status of a statewide program under the auspices of the Department of Labor, providing the chance for successful, productive lives for young Californians.
