## Stop the Second Shift

Dear Ann Landers: I am 16 and very popular. In fact, TOO popular. Please believe me when I say I am still a good girl. I admit I have necked with several guys (I started to date when I was 13) but I have never done anything I am really ashamed of.

The problem is that I get asked out so much and I like so many guys that sometimes I accept two dates for one night. For example, I'll accept a date with Freddie from 7 til 10, and then I'll tell Teddie to come over at 10:15 and we'll go for a ride or a late show at the drive-in. It has come back to me that I am getting a pretty tacky reputation.

I am only allowed to go out weekend nights and I have a 1:15 curfew which I have never broken. Please tell me how I can improve my reputation.—ANGEL PUSS.

Dear Angel: The first thing you can do is cut out the second shift. A gal who has to stagger the traffic gives the impression that she is trying to break some sort of a record.

And I suggest that you make a new rule—"Hands off, one and all." Although you obviously consider yourself virtuous because you are technically intact, I suspect you are crowding the line, which can be risky as well as damaging to a girl's reputation.

Dear Ann Landers: I got plenty darned sore when I read that letter from "Goggle-eyed," the man who claims this is "The Year Of The Rear."

I agree that women's fashions are downright unattractive these days. Anyone with two eyes in his head can see that there is entirely too much leg showing and the skirts are much too tight and too short. But why don't some of the men take a good look at themselves? I am sick and tired of seeing rolls of fat hanging over belt buckles. My husband yells that I am a lousy wife because buttons are missing from his shirts. The buttons do not come off in the laundry as he insists. They pop off when he tries to jam his fat self inside. He sneaks the shirts back into the drawer and then he puts the blame on me.

Sure, some wives are too heavy but many of them have had four or five babies in 10 years. They work like horses and they eat like horses. What's the husbands' excuse?—SIZE 16 AND WISH I WEREN'T

Dear Size 16: Take that and that and that, you fat husbands. But, in all fairness, I must say, Lady, excuses don't count. It's what meets the eye that matters. And the eye is meeting entirely too much flesh these days—both male and female types.

Confidential: To all the physicians who wrote to thank me for defending them against irate patients who were kept waiting (sometimes for hours): I love you, too.

Confidential: To all the patients who wrote to tell me that I am out of my mind when I try to make excuses for physicians who keep patients waiting (sometimes for hours): Sorry, but what I said still goes. A first-rate physician thinks more about people than he thinks about time.

# Evaluate Your Kids Before It's Too Late

I once heard an expert say, "If you want to be a financial giant, pick a tramp for a father." Conversely, he said if the parent has much money, chances are the son will wind up on what you Americans call Skid Row.

His reason for this statement is that too many of today's children are given everything that

## COUNT MARCO

is within their parents' power to give. They have no idea what it is to really want something and work to get it.

Consequently, if they don't have their immediate desires fulfilled they rebel by being antagonistic or even break the law to achieve what they feel is their due.

My heart goes out sometimes in sympathy to women like Barbara Hutton and Doris Duke who can never yearn for anything material but that it isn't immediately available.

There's no period of wishing, then working, then finally achieving. Only through this course of events can anyone really appreciate the final achieving.

It is reasonable that every parent wants the child to have the very best, but as my aunt the Contessa maintains, "Before you send a child off to college make him work for one full year in a factory at the hardest possible labor."

She feels that only then will he appreciate an education that would keep him from going back to facing that dreadful year for

the rest of a lifetime.

What I can see of the modern generation of young ones coming up in this country looks like nothing but irresponsibility. You give them automobiles and money to spend as they see fit, yet they don't know the meaning of responsibility.

Take a good look at your youngsters not as a parent but objectively—and unless you are utterly blind such a thing is probable and possible. Sit down with a pad and pencil and list the attributes and the unpleasant points of your child.

Is he or she selfish, mean, demanding, unpleasant, inconsiderate, loud, tardy, sloppy? As you list them think about them. Are you surprised?

Be frank and cruel with yourself, if necessary, while analyzing the child. Your pride may suffer a few setbacks when you discover yours isn't the genius or dearly beloved darling you've been deluding yourself into thinking.

However, you'll both be the better for knowing the unpleasant things in advance, and can try to compensate by fostering the better ones or correcting the bad ones while you still have a bit of authority.

Don't get traumatic about it. After all, if your child had to list what he thought was wrong with you, his list would be longer than yours. But c'est la vie.
