

Kanine Korner

By Francis X. Lohmann

Along with the pleasures outdoors, poisons become a greater threat. Insecticides and pesticides used in the garden can cause severe stomach upset, even death in dogs, so it is advisable to follow directions carefully and keep pets away from the treated area for at least 48 hours. Lead paints, such as are used to paint exteriors, can be harmful and should be treated as potential killing poisons. Throw away empty paint cans as some dogs like to lick the paint from the sides or chew on the rim.

OF COURSE the biggest danger to your dog, in regard to poisoning, can be avoided by keeping your dog leashed at all times.

Summer sun, which can bring you the tan you dream of all winter, is another

factor to consider in planning a summer of fun for your dog. Be sure he always has plenty of fresh, cool drinking water. Don't leave him in a car parked in direct sunlight. Even if you will be gone only a moment or two, find a spot which is shaded and leave two windows slightly open to insure ventilation.

Despite the impression you may have by now, summertime should be fun for your and your dog. Now that so many motels and hotels are accepting guests with dogs there's no reason why you shouldn't take your dog along on your vacation. State and national parks generally will accept leashed dogs in their grounds and campsites, and by using a little ingenuity you may be able to locate an area in which Bowser can try out his swimming technique.

BOWSER BROWSINGS — Boxer Club of Southern California goes into action Saturday with the annual specialty show at the Compton

police officers are handed over to the home, a charitable institution founded in 1860 and supported by voluntary contributions. About 4,000 dogs were reclaimed last year, many by tearful owners, not the other way round, one keeper said. I'm only asking why can't we have something along those lines on this side of the Big Pond supported by dog lovers?

Howard Hawks is trainable and companionable and Jim Nabors' Gomer Pyle favors the Collie breed owned or known one will unhesitatingly agree.

In the relatively short time that the Shorthair has been known in the United States and Canada, he has come out rapidly to the front. More of the 10 top breeds in America, three of them—the Boxer, Dachshund, and German of the American Kennel Club.

BREED OF THE WEEK — that the Shorthair has been known in the United States and Canada, he has come out rapidly to the front. More of the 10 top breeds in America, three of them—the Boxer, Dachshund, and German of the American Kennel Club.

The German Shorthaired Pointer is a loveable, affectionate and staunch companion and protector to the entire family. A great dog, indeed!

Listen to Francis X. Lohmann's radio version of Kanine Korner Monday through Friday at 4:30 p.m. over Station KTYM, 1460 KCS.

Science Shrinks Painful Hemorrhoids Stops Itch—Relieves Pain

Finds Way That Both Relieves Pain and Shrinks Piles In Most Cases

New York, N.Y. (Special): Science discovered a medication with the ability, in most cases, to actually shrink hemorrhoids and promptly stop the burning and relieve pain.

In one hemorrhoid case after another, very striking improvement was reported and verified by doctors' observations. Pain and itching were promptly relieved. Then this medication starts right in to gently reduce the swelling of inflamed, irritated piles.

Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so. And it was all done without narcotics or stinging astringents of any kind.

The secret is Preparation H — an exclusive formula for the treatment of hemorrhoids. There is no other formula like it! Preparation H also lubricates to make bowel movements less painful, it soothes irritated tissues and helps prevent further infection. Preparation H comes in both ointment or suppository form. No prescription is needed.
