

Opening Scheduled for Prairie Ave. Improvement

Work on the improvement of Prairie Avenue from Manhattan Beach Boulevard to Redondo Beach Boulevard, recently approved by Supervisor Kenneth Gibson, will begin in September, will consist of reconstructing and widening the west side of the roadway to provide a four-lane, fully-curbed highway. The project lies within the city of Lawndale, which is contributing a portion of the project's over-all cost.

Gibson Asks 'Renewal of Confidence in America'

Los Angeles Councilman John S. Gibson, Democratic candidate for Congress, today called for a "national renewal of confidence in America with programs and policies to re-emphasize that this is a land of opportunity and freedom for everyone."

In a speech to campaign workers at his headquarters, Gibson declared: "America has shown the world that it can produce an abundant life for its people. Now we must show that we can do even better, and that we can increase the educational and job opportunities

for all Americans, and especially for those who up to now have been under-employed. "Much of this can be done by private enterprise, which through tax incentives and other encouragements, can enlarge its hiring and training

programs for the under-employed community. "In addition, we must stimulate the export of American goods, through tax incentives, and other means, to strengthen our dollar and to provide more jobs and investment opportunities for our own people.

"The crisis of our cities is our biggest challenge, and I propose to use my long experience in municipal affairs to work for, and to expedite, those programs that are urgently needed by our cities and great urban centers." Gibson has represented the City-Watts area in the Los Angeles City Council since 1951. He was Council President for eight years. He was also a vice president of the League of California Cities. Currently, he is City Council President Pro Tem.
