

DISCUSS PLANS . . . Ray Watt (left), president of the R. A. Watt Co., one of the nation's largest home builders and community developers, met recently in Washington, D.C. with Secretary of Housing and Urban Development Robert C. Weaver to discuss national housing needs and the role of private industry in helping to relieve the housing crisis in cities across the U.S. The Watt company has launched a long-range program to build homes in some 20 key metropolitan centers across the country.

County Taxable Sales Show Quarter Uptrend

Taxable retail sales in Los Angeles County rose 0.3 per cent in the last three months of 1967, compared to a state-wide gain of 4 per cent during the same period of 1966, the State Board of Equalization has disclosed.

Chairman Richard Nevins, Southern California member of the board, noted that the October-November-December total for the state was a record \$9.7 billion, \$367 million above the same time a year ago.

Fourth quarter sales in Los Angeles County were \$3,715,558. The holiday sales period also helped a lackluster taxable sales year show a 2 1/2 per cent rise of 1966.

However, Nevins said the last three months of 1967 logged retail sales increases of more than 10 per cent in 18 counties over the same period a year ago, and 17 other counties had more than 5 per cent gains.

Orange County led fourth quarter sales with a 14 per cent plus jump among the major counties. San Diego and Santa Clara exceeded 11 per cent.

New car sales had a disappointing year, dropping below the two previous years. Used car sales were off 2 per cent for the year and at their lowest since 1961.

On the bright side, Nevins reported that building material sales spurred 10 per cent in the final three months of 1967. Apparel, home furnishings, and restaurants showed increases of more than 5 per cent for the quarter.

The totals excluded more than \$2.3 billion spent for tax-exempt food, gasoline, and other items.

The state's share of the sales tax revenue, raised from three to four per cent last August, was \$388 million, up 38 per cent from a year ago.

The Board also collected \$96 million from the one per cent local sales tax for cities and counties.

In Torrance, apparel stores sold \$5.3 million worth of merchandise during the final three months of 1967. Other figures are as follows: general merchandise stores, \$5.046 million; packaged liquor stores, \$1.868 million; drug stores, \$3.374 million; eating and drinking places, \$3.237 million; food stores, \$4.938 million.
