

TAXPAYERS ASK IRS

Short Form Available for Tax Return Corrections

Q—I itemized deductions on my 1967 tax return but didn't take anything for medical because these expenses didn't go over the 3 per cent income limit. Now I find that medical insurance premiums are not covered by the 3 per cent rule. Is it too late to do anything about this?

A—No, a taxpayer generally has three years from the day the return was due to make a change. To make this change on your 1967 tax return, obtain a copy of Form 1040-X from your local IRS office. This form permits a taxpayer to correct a specific item on a return without completing an entire new Form 1040.

Regarding your deduction for medical insurance premiums, you may deduct one-half of your total expense for yourself, spouse and dependents, up to a minimum of \$150 without regard to the 3 per cent income limitation. However, the balance of your pre-withholding was enough to take care of things. Now I'm earning some money on the side and tax is not being taken out. Is it too late to file an estimated?

A—No. For changes occurring after April 1 and before June 2 a declaration of estimated income tax should be filed on or before June 17. When you file, pay one-third of the estimated tax due.

Forms and instructions can be obtained from local IRS offices or by sending a postcard to your district director.

Q—Can we claim as a dependent a child we take for the summer months?

A—If the child will be with you for just the summer no dependence exemption may be taken. To qualify as a dependent, a child not related to you must be a member of your household and live with you the entire year, in addition to meeting the other tests.

Q—I'm in a reserve unit. Are any of my costs deductible?

A—The cost of your uniform and their care and maintenance are deductible.

Pool Closed For Repairs

Emergency repairs have forced the closing of the city plunge until at least next Wednesday, according to Harry B. Van Bellehem, director of recreation for the City of Torrance Recreation Department. It was previously announced that the pool would be open for public recreation swimming, beginning last Saturday. Until pool repairs can be made, all swimming classes, swim team practice and daily swimming have been canceled.

Q—I have a refund coming on some business taxes as well as one on my personal income tax. I just go a check and I'm not sure which refund it covers. Is there any way to tell?

A—Refund checks are identified by the class and period of tax covered. At the right of the check just under which indicate the type of tax. For example, individual refunds are identified as TAX REF while corporation income tax refunds appear as CORP REF.

The period covered by refund is indicated at the left of the check under the date.
