**Now Possible To Shrink Painful Hemorrhoids**  
And Promptly Stop The Itching, Relieve Pain In Most Cases.

New York, N. Y. (Special): A scientific research institute has discovered a medication which has the ability in most cases—to actually shrink hemorrhoids. In case after case, the sufferer first notices prompt relief from the itching, burning and pain. Then this medication starts right in to gently reduce the swelling of inflamed, irritated hemorrhoids.

Tests conducted on hundreds of patients by leading doctors in New York City, in Washington, D.C. and at a Midwest Medical Center proved this so.

And it was all accomplished without narcotics or stinging astringents of any kind.

The secret is Preparation H®—an exclusive formula for the treatment of hemorrhoids. There is no other formula like it! In addition to actually shrinking piles and relieving the painful distress—Preparation H lubricates, makes bowel movements less painful and soothes the irritated tissues. It also helps prevent further infection.

Preparation H comes in ointment or suppository form. No prescription is needed.
