

Industrialist to Head Reception Committee

C. Nelson Rucker, Torrance industrialist and civic leader, has been named general chairman for a reception honoring Supervisor Burton W. Chace.

The reception is scheduled from 5 to 7:30 p.m. Feb. 14, at the Latitude 20 Restaurant, 3901 W. Pacific Coast Hwy.

Rucker is plant manager for the Union Carbide Corp.'s chemicals and plastics plant here. He is active in the Ro-

materials for the Hiroshima nuclear bomb.

In 1948 he was named director of the Oak Ridge National Laboratory, which centered around the first atomic production reactor in this country. The reactor produced the first radio-active isotopes which are now used in medical therapy and research.

He and his wife, Nettie Mae, live at 635 Paseo del Playa.

Railroads May Get Tabs For Right-of-Way Beauty

By KENNETH HAHN
County Supervisor

Through the years, one of the great stumbling blocks to community beautification has been railroad tracks.

Railroads are necessary to our nation's economy and must, too often, cut through communities. But they are not attractive.

I've long felt there should be ways to prevent railroad rights-of-way from becoming resting places for tin cans, bottles, trash — "slum strips"

which destroy the image of entire neighborhoods.

It has been my experience, unfortunately, that the railroads could care less about beautifying their rights-of-way. They own the property. And, until recently, the county had virtually no control over unsightly conditions along the tracks.

NOW THERE is a way. I am confident it will work.

This week I authored a motion to form a "park" assessment district on a short strip of railroad adjacent to 117th

Street between Budlong and Vermont avenues.

Just as government can form an assessment district to provide landscaping near a tract of homes, it can form such a district when there's only one property owner (the railroad).

This allows the county crews to plant trees and beautify the right-of-way and bill the railroad of the costs.

to me, are confident the public will win.

Once tested, and upheld, I hope to expand this program to many other communities, particularly the Watts-Willowbrook area.

Right now, what we can do on that few blocks of 117th Street could open the door to more safe, attractive, and pleasant communities throughout Los Angeles County.

C. NELSON RUCKER
Reception Chairman

ty Club, the Torrance Chamber of Commerce, and church and scouting activities.

"It is a pleasure to head the committee planning this tribute to Supervisor Chace," Rucker said. "The community owes a great deal to this man and this event will be a fitting tribute."

CHACE represents the Fourth District, which includes Torrance and other area cities, on the Board of Supervisors. He has been in office since 1953, having been elected to the board four times.

"The purpose of the reception is to give residents of Torrance an opportunity to meet Supervisor Chace and his wife, Polly, on an informal basis," Rucker said. "All Torrance residents are invited."

Tickets for the reception are priced at \$2.75 each and include a light buffet and refreshments. Reservations may be made by sending a check to Torrance Better Government Committee, attention C. Nelson Rucker, chairman, 1510 Cravens Ave., P.O. Drawer L, Torrance.

RUCKER, a native of Virginia, has held various positions in the Union Carbide organization.

He served as manager of the Uranium-235 Gaseous Diffusion Plant in Oak Ridge, Tenn., from 1944 to 1946, and from 1946 to 1948 was manager of another Oak Ridge plant which produced the

T.G. & Y. Unit Sets Opening

A mid-February opening is being scheduled for the new T. G. & Y. Store located in the Torrance Plaza Shopping Center at Anza Avenue and Torrance Boulevard.

Construction of the new store, which will be T. G. & Y's 110th California unit has been completed, according to J. M. Newgent, western division vice president of the firm.

The new store contains 10,000 square feet and was developed by Benjamin Franklin of Beverly Hills. Gerald Kausausky of Los Angeles is the architect.

Of the nearly \$30 billion being spent on highway improvement in the Free World, motorists in the United States put out almost half.
