Votomatic Machines Pass Test

By BURTON CHASE
County Supervisor

The IBM Votomatic ballot system received its first full-scale test in the Fourth District Feb. 6 and came through without a hitch.

The devices were used at the 35 precincts where voters cast ballots in the city of Carson incorporation election. A tally was completed by 9:30 p.m., just 2½ hours after the precincts closed.

There was one problem—a precinct worker was late turning in the ballots to the tabulation center, but that was human error, not the fault of the IBM devices.

There were 9,951 ballots cast for two issues (incorporation and city name) and 45 candidates—that's a king-size ballot. It was a true test of the vote devices for the county, and the results of the tests are very gratifying.

INCIDENTALLY, congratulations are in order for the many people who worked for incorporation of Carson and the victors in the races for municipal seats.

County supervisors invited the incoming officials to be present or the official canvass of votes on Feb. 13 and it was a pleasure to meet and chat with this fine group of civic leaders.

Councilmen of the county's 77th city are John Marbut, John Junk, Sak Yamamoto, Gilbert D. Smith, and H. Rick Clark. Marilyn R. Cortina was elected city clerk and Dorothy Carter is city treasurer.

The city of Carson is fortunate to have such fine leaders at this important point in its history.
