Do you know what Christian Scientists really believe?

Relatively few people do. They are often surprised at the logical and understandable theology of this Christian religion. In fact, many people have become Christian Scientists when they have discovered how clearly it relates the teachings of the Bible to living in today's world. Why not come into our Reading Room and learn this for yourself? No need to speak to anyone . . . just come in and choose a chair and sit down to read. It could be the most inspiring and helpful time you've ever spent.

Beat the phone company out of a couple of bucks.

Wait till after 7 p.m. and call anywhere in the country for a dollar.

A lot of long distance callers would be in seventh heaven if they could put one over on the phone company. Because they think we're putting one over on them. Their gripe is that they're paying more for calling long distance during the day than in the evening hours. But since most people insist on calling during the day, our overhead goes up, up, up. So our prices can't go down, down, down. And that's why we charge our regular rates. But at nighttime, we can practically hear a pin drop. Hardly anybody calls long distance, so hardly any equipment is being used. And that's when any long distance caller can beat us out of a couple of bucks. Because if you can wait till after 7 p.m. or any time of the day on Saturday and Sunday, you can call anybody, anywhere in the country for a dollar or less. So you don't really need a lot of money to call long distance. All you need is a little patience. **General Telephone A dollar goes a long way.**
