

**Wall Coverings**

# Newest Patterns On Market Now

When redecorating with wall-coverings, don't forget there are countless patterns now available which are keyed to hobbies and special interests of both youngsters and adults.

There are patterns of sport heroes, sports cars, airplanes,

## Nursery Features Variety

Prominent nurseries usually have the newest varieties of the more common shrubs offered for sale to home owners, according to experts. Often the difference in price may be only nominal for a variety that is outstanding and will give pleasure for many years.

The best way to obtain the best varieties is to go to the best nurseries and mail order catalogs. These nurseries constantly are on the lookout for the newly developed shrubs having superior characteristics. Secondly, they will exhibit photos of the new varieties so you know what you are getting. Hybridized plants may cost more but give more value in colors, better blooms, better form or other features.

ships, balloons, comic strip characters, movie stars, teenage motifs. Op art, Pop art, hunting dogs, china, eagles, cowboys, horses, Indians, guns, nursery stories, flowers of all types — roses, daisies, poppies, anemones, etc.—travel posters, French theatre posters, circus themes, Revolutionary war vignettes, and Olympic contestants.

The United Wallpaper Co. reports that these vivid designs are made especially for the do-it-yourself decorator. Many are on prepeasted, vinyl-coated stock and are strip-pable as well.

Easy-to-follow instructions are included with every roll. Necessary tools are scissors, razor, plumb line, ruler, sponge and waterbox (which may be obtained from wall-covering dealer).

Strippability is a real advantage if you select a paper to reflect a current fad or hobby which might be outgrown. While the vinyl coated wallcovering in itself offers years of service, if the homeowner grows bored with the pattern, it may be removed easily in minutes. No steaming, scraping or soaking is necessary with strippable wallcoverings. Just loosen a corner of the wallcoverings and peel it from the wall, a strip at a time.

The CarpetGard method of cleaning wall-to-wall carpets formulated out of a two-year development program tested in the field and in the laboratories, is scientifically made to make your carpet look revitalized, clean . . . and brighter.

CarpetGard's five step scientific professional cleaning brings back the color and freshness of your wall-to-wall carpet and softens it on the floor with superior cleaning and very low soiling rate . . .

Soil removing steps for cleaner carpets are:
