Solomon to Seek Mayor's Post in Redondo Beach

City Councilman J. O. Lee announced he will be a candidate for mayor of that city. Solomon said he will seek his city's highest office because "As a city councilman I have fought to make our city a better place to live. I have consistently battled to keep our beautiful beaches free of high rise buildings; our residential areas free from commercial encroachment; our city's programs responsive to the people's needs and our budget on sound fiscal grounds."

Solomon continued, "Even though the city's assessed valuation has continued to climb, there has been no tax relief because municipal spending has been way out of line." He went on to point out that "the present mayor is giving too much attention to the cutting ribbons and not enough attention to cutting costs and spending."

"In my eight years on the City Council, I have felt stymied

at times because I had only one vote and the mayor was giving us no leadership. I believe I that there is much room for improvement in the areas of roads, lighting, flood control, parks and recreation, utility wire control, to name a few. In the weeks ahead, I will address myself to these issues that are of deep concern to everyone of us."

"I believe that the people of Redondo Beach want a mayor who can and does concern himself with local needs and who asserts himself in those directions," the councilman said. "I enter this race knowing that I do not have the advantage of incumbency, but also knowing that I will offer the people a record of accomplishments, fresh ideas, hard work, a fighting spirit coupled with a sound

business background. I ask for your support, your help and your vote," he concluded.

Would you lose money if you took \$10,000 out of your savings account tomorrow?

not at Western Federal.

Hugh Evans, Jr., President

Most savings institutions (including the five largest) require that your funds be held for 90 days before they earn full dividends. But not Western Federal. Your savings with us earn 5%, compounded daily from day in to day out without any minimum holding period required. It may seem like a little thing... until you need funds after only, say, 80 days. Then you realize you've lost up to \$111.80 in dividends we would have paid. Assets over \$230 million
