

Anti-Smut Bills Sent To Reagan

Capitol News Service
SACRAMENTO — The State Assembly Wednesday approved and sent to the governor two senate bills aimed at restricting and prohibiting the production or sale of obscene materials.

The measures, SB-62 and SB-63, both by Senator Robert J. Lagomarsino (R-Ventura), gained assembly approval by votes of 65-5 and 55-17 respectively.

Carried in the lower house by Assemblyman Frank Murphy (R-Santa Cruz), SB-62 makes it a misdemeanor to provide obscene materials to juveniles, while a second offense, would be treated as a felony.

SB-63 DEALS with materials furnished to adults and carries a maximum penalty of \$1,000, or imprisonment for not more than six months in jail for the first offense, or punishment of up to five years in jail for subsequent offenses.

SB-62 survived a move to amend it by Assemblyman John L. Burton (D-San Francisco), who sought to include toys and lunch boxes, as well as other materials, depicting war and violence, in those things considered objectionable. He was supported by Democratic Leader Jesse Unruh, who called "war the ultimate obscenity."

The move was defeated by a 21-47 vote.

ASSEMBLYMAN Alan Sieroty (D-Los Angeles), called the proposals a "political issue, a phony political issue." He charged the measures would force a bookseller "into self censorship." He also noted that in Denmark — the opposite position was taken and the appeal of obscene books has virtually disappeared.

Assemblyman John Miller (D-Oakland), charged that the question was a simple one: "Should someone else be permitted to read something we do not approve of." He declared it was a violation of freedoms as protected under the Constitution.

\$70 Checks Mailed to Taxpayers

SACRAMENTO — Nearly 21,000 Californians who filed for property tax relief checks of \$70 will be disappointed according to information from State Controller Houston I. Flournoy.

Flournoy said that 2.5 million property tax relief warrants will be mailed next week to homeowners throughout the state. He said this represents about the same amount of non-payroll warrants handled by the controller's office during a year's time.

Flournoy noted that while processing the claims, more than 15,700 duplicate applications were found.

In addition, machine matching with the Franchise Tax Board's records disclosed that some 5,200 individuals who filed for the refund had, in previous years, failed to pay their state income tax.

Flournoy said that "as a service to the taxpayer, the controller will not mail them a check but will credit their refund against their outstanding balance to the Franchise Tax Board."
