Tract 439, as recorded in Book 15, page 183 of Maps of the Records of Los Angeles County; thence south parallel to and distant 17 feet westward from the north and south line between lots 3 and 2 of said Tract No. 639 to the southerly boundary line of the City of Torrance; thence easterly, following the southerly boundary of the City of Torrance to a point 150 feet easterly from the easterly side of Arlington Avenue, measured at right angles thereto; thence northerly along a line 150 feet easterly from and parallel to the easterly side of Arlington Avenue to the southerly side of the Long Beach and Redondo road; thence in a straight line to the southeast corner of lot 5, Block 299 of the hereinbefore mentioned Tract No. 1952; thence along a line which is the easterly sides of lots 5, 6, 7 and 8 of Block 299 of Tract No. 1952 above referred to, to the northerly side of Block 299; thence in a straight line to the point of intersection of the northerly side of lot 8 of said Tract No. 1952, with a line drawn parallel to and distant easterly from the easterly side of Arlington Avenue 147 feet; thence northerly along a line drawn parallel to and 147 feet easterly from the easterly side of Arlington Avenue to the northerly side of Tract No. 3758 as recorded in Book 41, pages 26 and 27, of Maps of the Records of Los Angeles County; thence northerly in a straight line to a point in the center of the southerly side of Block 43 of the Torrance Tract hereinbefore referred to; thence northerly along a medial line of Blocks 43, 44, 38 and 21 of the Torrance Tract hereinbefore referred to, to the southerly side of Carson Street; thence westerly along the southerly side of Carson Street to the place of beginning. Excepting therefrom any part of any public street or alley which may be included in the above described district.

For a further and more complete description of the territory included in the assessment district, reference is hereby made to the map of the assessment district for the improvement of Arlington Avenue from Carson Street to the southerly boundary of the City of Torrance on file in the office of the City Engineer of the City of Torrance.

Section 2. Notice is hereby given that serial bonds to represent unpaid assessments and bearing interest at the rate of seven (7) per cent per annum shall be issued hereunder in the manner provided by the "Improvement Bond Act of 1915," and amendments thereto the last installment of which bonds shall mature nine years from the second day of July next suc-

ceeding nine months from their date.

Section 3. Notice is hereby given that on Tuesday, the twenty-first day of March, 1922, at 8 o'clock p. m., in the Council Chambers of the Board of Trustees of the City of Torrance, any and all persons having any objections to the proposed work or improvements may appear before the Board and show cause why said proposed improvement should not be carried out in accordance with this Resolution.

Section 4. The Street Superintendent shall post notices of improvement as required by law.

Section 5. All of the herein proposed work shall be done in pursuance of an act of the legislature of the State of California, designated the "Improvement Act of 1911," approved April 7, 1911 and amendments thereto.

Section 6. The City Clerk shall certify to the adoption of this Resolution of Intention, and shall cause the same to be published twice in the Torrance Herald, a weekly newspaper published and circulated in the City of Torrance which is hereby designated for said purpose. This Board of Trustees does not deem it advisable that the Clerk mail copies of the Notice of Improvement to property owners, and he shall not mail any of the same.

GEO. A. PROCTOR,  
President of the Board of Trustees of the City of Torrance.

ROBERT J. DEININGER,  
City Clerk of the City of Torrance,  
State of California, County of Los Angeles—ss.

I, Robert J. Deininger, City Clerk of the City of Torrance, California, do hereby certify that the whole number of the members of the Board of Trustees of the City of Torrance is five (5) and that the foregoing Resolution being resolution No. 46, was duly passed and adopted by a 4-5 vote of all its members and approved by the President of said Board and attested by the City Clerk, all at a regular meeting of said Board, held on the 23rd day of February, 1922, and that the same was passed and adopted by the following vote:

Ayes: Trustees Fitzhugh, Gilbert, Stone and Proctor.  
Noes: Trustees none.  
Absent: Trustee Smith.

ROBERT J. DEININGER,  
City Clerk of the City of Torrance.  
(Seal)

TOP GRAFTING TO BE SHOWN

The Agricultural Extension Service of Los Angeles county has arranged to hold a series of five field demon-

strations on the top grafting of deciduous and walnut trees. Much interest has developed recently in top grafting trees to secure better varieties of old trees and particularly in many deciduous varieties to secure pollination which oftentimes aids materially in obtaining heavy production. These demonstrations will cover all deciduous fruits as well as walnuts. It is probable that representatives from the Citrus Experiment Station at Riverside will also be present to handle the walnut top grafting work. These meetings will be held at Baldwin Park, Pomona, Van Nuys, Athens, and in the Antelope Valley at Littlerock.

**Municipal Ownership of Electric Power**

Referring to the proposed transfer of the Southern California Edison Company's property within the city limits of Los Angeles to the city of Los Angeles, Mr. John B. Miller, President of the Edison Company, was asked what effect, if any, this would have on the Edison Company's business. Mr. Miller said:

"The effect of the transfer of the property within the city limits of the city will be eminently satisfactory to the company. It will have no effect whatever on the company's business or standing, except that the company, by reason of the receipt of upwards of \$11,000,000 through the transfer will be able to speed up its program of water power development

**GRANDMA USED SAGE TEA TO DARKEN HAIR**

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not what we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

**STOP CATARRH! OPEN NOSTRILS AND HEAD**

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffing, blowing, no more headache, dryness or struggling more breath. Ely's Cream Balm is just

just that much faster and on just that much broader a basis. The volume of the company's business affected by the transfer is only ten per cent of its total business, and will not be affected by the transaction as under the operating agreement the business has been transacted for the last five years substantially the same as it would have been if the transfer had taken place at that time. The only difference will be that the city will take the actual handling of the retail accounts within the city limits and the company will continue to supply the city's surplus power requirements on a wholesale basis.

"The effect of the transfer will be more apparent in the speeding up of the water power construction so necessary to the development of California than in any other way."

**A Big Celebration in Honor of Mr. Hawkins**

A double birthday anniversary was celebrated on February 22nd, when the birthday anniversary of Mr. Lee B. Hawkins was observed and also that of George Washington; the latter, the revered Father of his Country and that of Mr. Hawkins, the father of one of the largest business enterprises between Los Angeles and the sea. As a preliminary, indicating the magnitude of the trucking hay, grain, seed and fertilizer business, a picture was taken of the fifteen trucks and the autos in the enterprise. At 5 p. m. a banquet was served to the employees connected with the big business the following being in attendance at the festal board: Mr. and Mrs. F. L. Steele, Mr. W. R. Lequire, Mr. Floyd Meister, Mr. and Mrs. Frank Hawkins, Mr. S. M. Haut, Mr. Edward Crittenden, Mr. R. O. Williams, Mr. J. G. Brown, Mr. H. F. Dulger, Mr. Glenn Threlkeld, Mr. Earl Christensen, Mr. W. J. Shiffer, Mr. C. B. Kirkland, Mr. I. Wada, Mr. C. C. McRae and Mr. and Mrs. Lee B. Hawkins.

A surprise was given the big force of employees when Mr. Hawkins addressed the assemblage upon a profit-sharing plan which presented a method of welding the force together for a still more intensive campaign for business betterment.

The achievements of Mr. Hawkins in the business world is something remarkable and the successful conduct of the business of this magnitude is a tribute to his executive ability and to a strict adherence to the principle of absolute guarantee of honest methods at all hazards. And Moneta has gained greatly by the presence of this large business enterprise of Mr. Lee B. Hawkins.

**The Associate Editors of the Journal and Sentinel are Mrs. Ella W. Hoag of Toledo and Mr. Duncan Sinclair of Glasgow, Scotland.**

The Christian Science periodicals and publishing business are therefore now back in the hands of The Mother Church after having been separated from it for nearly three years through the action of the former Trustees in securing an injunction which was dissolved by the Supreme Court of Massachusetts November 23, 1921.

**Primroses and Publicity**

Many persons are unaware that there are many papers published in Los Angeles and other large cities, which will not compare in size, or otherwise, with many hundreds of papers published in the small towns. But that is the case. It is passing strange that many persons in small towns, blithely compare the home paper with the largest dailies in the metropolis and for the purpose of blocking the road for the home paper. But these persons do not ridicule the small-town grocer, clothier, tailor, blacksmith, garage, oil station or restaurant. But the small-town preacher, doctor, lawyer and newspaper are often scorned and ridiculed even by some so-called business people. And now, right here, be it known that hundreds and hundreds of dinky grocery stores, shoe stores, garages and clothing stores are found in the big cities. It seems anyone that has been away from home twenty miles should know this to be true.

And more: How many dwellers in Podunk could have any mention of their name in the city dailies? And how many of the pretty girls could have their pictures in the social edition of the big dailies in the Sunday edition? Not a solitary one. The big dailies pay no more attention to them than if they were yellow dogs, unless they are millionaires and pay one hundred dollars or so to the publicity man for the privilege of having their picture and write-up in the paper. There is but one other way for a remarkably attractive woman, of small financial means, to get her name, picture and big write-up in the big Sunday edition. Tennyson speaks of "The Primrose Path" of Dalliance. That is the sure way to publicity, if one will pay the price; the big dailies make a specialty of this "news." The country papers are printed for the home circle and are not cultivating primroses.

That is one of the essential differences between the country paper and the big dailies and it is also the

essential difference between the small, weekly community papers, in the big cities and the big dailies. The neighborhood, or community papers, in the big cities, circulate for a radius of about the same area as a country-town paper and they print the neighborhood news, not social news about millionaires, but the news of the uncommon people who are comparable to those of the smaller towns.

**Auto Club Issues Request for More Care in Driving**

Motorists of this section are getting so careless in speeding through various towns that a general request for greater care has been issued through the Automobile Club of Southern California.

A general tightening up of speed regulations throughout the state is threatened by municipal authorities unless autoists exercise greater care when touring, according to club officials.

Certain leniency is practiced by the majority of the smaller municipalities in allowing a greater speed to motorists than that provided by the state motor vehicle act, which regulates all questions of speed, but this leniency is to be revoked unless the motorists themselves learn to mind their step.

Particular complaints of speeding and reckless driving by visiting motorists, or motorist passing through, have been registered by communities in practically every southern county. Auto club officials request all motorists to check over the list of towns making these complaints, and to abide by the laws of carefulness when touring from county to county.

Here are the municipalities which state that undue speed is exercised by motorists, and which also say that much against their will they will be compelled to adhere strictly to the law with no leniency at all unless steps are taken by autoists to curb their recklessness. San Dimas, Pomona, La Verne, Uplands, Ontario, Rialto, Oceanside, La Mesa, Delano, Porterville and Lindsay have been given the greatest cause for complaint.

Auto club officers declare that such complaints are justified and call upon auto owners to respect the law at all times—and to appreciate the generous spirit of the towns through which they pass.

Though he who woos and runs away May be a knavish churl— Still, he may woo another day, And woo another girl.

**SOMETHING NEW AND SNAPPY for AMERICAN WORKERS**  
THE AMERICAN WORKER LIKES SOMETHING NEW

And MILWAUKEE KING "Strength" Shoes have the "snap" and "punch" that gives the wearers' shoes distinction—makes them stand out from the usual style of work shoe.

And every pair is guaranteed as to quality and workmanship. They reduce the cost of shoes to the AMERICAN WORKER, for after all it's the length of service that counts.

Top grade upper leather, A-1 selection of sole leather and the work of "high grade" operators makes MILWAUKEE KING the "lowest cost per year" shoe in the country.

Believe us, when we say—  
**THEY LOOK GREAT**  
**THEY FEEL GOOD**  
**AND WEAR LONGEST**  
MILWAUKEE KING "Strength" Shoes NEVER Disappoint

**CHRISTIAN SCIENCE PERIODICALS IN NEW HANDS**

The new trustees of the Christian Science Publishing Society have taken over the Publishing House and business. They are William P. McKenzie of Cambridge, James E. Patton and Fred H. Lamson of Boston.

Willis J. Abbot, the newly appointed Editor of the Christian Science Monitor, is a native of Connecticut, and a grandson of the Reverend John S. C. Abbott of Maine, whose "Biography of Napoleon Bonaparte" was a famous book of the nineteenth century, and whose "History of Christianity" was one of the works in Mrs. Eddy's library. Mr. Abbot is a graduate of the University of Michigan, and has been all his life in journalistic and literary work. He served for many years as a Washington correspondent, was an editorial writer on the New York Sun, and has been editor-in-chief of prominent morning newspapers in Chicago and New York. He is the author of a number of volumes, mostly of biography and history, and his writings on the United States Navy have been adopted by the Navy Department for use on the ships and in the Naval College at Annapolis. Mr. Abbot is a contributor to most of the magazines and was a regular writer for the Outlook, of which his uncle, Dr. Lyman Abbot, is editor. He is a member of The Mother Church of Christian Science. His residence has been recently in New York City.

Albert F. Gilmore, the new Editor of the Christian Science Journal and Sentinel, was born of New England parents, a descendant of the Pilgrims. He was educated in the schools of Maine and at Bates College, of the governing board of which he has long been a member. Mr. Gilmore was for several years an educator, having served as high school and academy principal and superintendent of public schools. He has also served as a legislator. For many years he was engaged in the work of educational publication in New York City. He is a writer and lecturer on nature subjects, and author of several books. Mr. Gilmore is a member of First Church of Christ, Scientist, of Brooklyn, N. Y., which he has served in various capacities, including that of First Reader. He has been a Christian Science practitioner for several years and is at present serving his fifth term as Committee on Publication for New York State.
