

**SPRINGTIME PORTRAYED BY CHILDHOOD AT WOMAN'S CLUB**

When the average man or woman conjures up a poetic picture of Springtime—poetic, we said, mind you—isn't it composed, for the most part, of blue skies, fleecy clouds, golden sunshine streaming upon green fields, with trees all about around the central figure of the picture, and the figure is that of Youth—happy, care-free, light-hearted, laughing youth!

So, then, come, tired fathers and mothers, and bring along the Aunt Nells and Uncle Harrys, to American Legion Hall next Monday afternoon on your way to vote and promptly at 2:30 watch a small group of Torrance's gifted children exemplify the Spirit of Spring, and thereby awaken sweet memories in your hearts of the spring that bloomed for you!

There are several cages of canaries required to finish the stage setting, and anyone having birds they are willing to loan by leaving such message, name and address with Mr. Paige can rest assured their pets will be called for and delivered home, carefully and safely.

Outline of program is somewhat as follows:

**KEYSTONES**

The county did a good job smoothing out the ruts in our roads. Now let's go after a good regrading and oiling job. There must be a good many thousand dollars of our tax money lying around loose somewhere.

The local C. of C. held a rousing session at Mr. Heppy's on Saturday evening. After business came cards and dancing, followed by an April Fool supper that had everybody guessing.

The County Planning Commission and the Long Beach C. of C. stepped into line Saturday for the paving of Carson, Torrance, to Long Beach Blvd. Now everybody roll up your sleeves and go to work. The Lord helps them that helps themselves.

New houses of recent construction are Mr. Well's on Vermont, Mrs. McGarrigle on Hoover, Mr. Anderson on Ocean Ave., and Mr. Honor on 216th street.

The General Petroleum Co. is constructing two huge million-barrel storage reservoirs of dirt and concrete lined. Our guess would be that a refinery is a first-class possibility.

Did you ever stop to think that the hundreds of acres of strawberries being planted in this vicinity is putting us in first place in berry production. What's the matter with having a large preserving plant?

We noticed a good many Keystoneites at the Torrance C. of C. Monday night. Every man in Keystone ought to be a member. Fate has placed us in a strategic location. The gods furnish a wonderful climate, the transportation lines are bringing a multitude of people to California, and it's up to us as community builders to pave the way for their home making.

The world was not built in a day. We cannot get all our needed improvements at once. But when we start after one let's get it, and co-operation is the thing that wins. It built the trusts of olden times and it wins championship football games. The C. of C. is opening the door of the opportunity of your life. Get in line.

The ladies of the P. T. A. met at the home of the president, Mrs. Sapp, to prepare plans for the May entertainment. A delicious luncheon of strawberry short cake and coffee was served.

Mr. E. Gill of Gladys street is reported to have sold his property to Los Angeles buyers.

This week Mrs. H. C. Rocque has her sister and a lady from Atlantic City, N. J., as guests.

Neighbors were surprised to learn
