To the Motor Public:

Having recently taken over the Buick agency for the territory covered by Torrance, Hawthorne, Lawndale, Inglewood, El Segundo, Gardena, and intervening communities, I wish to say that construction of the most up-to-date garage and salesrooms will soon be under way in Gardena, and am arranging to establish branches in Inglewood and possibly Torrance. In these establishments I will carry a complete line of Buick parts and accessories and only the best Buick mechanics will be employed.

Hoping to receive the patronage of the residents of these districts, and assuring them of my intention to uphold the reputation of the Buick and co-operate in the up-building of the community, I remain,

Sincerely Yours,

H. N. GRIFFIN.

EASY TERMS ARRANGED ON ALL MODELS
CALL ME FOR DEMONSTRATION

As it is impossible to display all Buick models at one time, owing to limited space, frequent changes in models will be made, and that you may see the entire "Buick Family," you are invited to

Candidates for Governor May Come

That the largest number of people possible may hear and enjoy speeches of the two most important candidates for Governor and that the coming to Torrance of either candidate would swell the attendance at the fair, Secretary Pottenger of the chamber of commerce is negotiating with the respective managers of Moore and Johnson to have either or both of the candidates make speeches here before the close of the fair Saturday night. If the negotiations are successful the result will be announced in tomorrow's Daily Herald.

COOKS PAR EXCELLENCE.

It didn't take visitors to the fair long to discover that the place to get a "snack" to eat that really tasted like home was the Moneta booth, located at the right of the industrial tent and conducted under the auspices of the Ladies of the Presbyterian church of that thriving community. Every one of the ladies connected with the booth must have been selected for her culinary ability, for from the sandwiches through the list of various edibles to the cake and pie there's a delicious taste only found at "Mother's" table. So popular is the little booth that more than a half dozen helpers are necessary to care for the hungry throng that not only eat their fill of the good things on sale, but take home a basket filled with the fresh fruits and vegetables the ladies sell.

Head of Palos Verdes Project Here

Distinguished visitors by the score have visited the Torrance fair during the past week, but none whose endorsement of the project means more to Torrance, Lomita and vicinity than that of E. G. Lewis, originator of the great Palos Verdes project, whose vast enterprise is so closely linked with the future of this immediate vicinity.

Arriving early this morning, accompanied by the noted city planner, E. C. Olmstead and Mr. Cheney, a noted engineer, the trio made a hurried but comprehensive survey of the fair and expressed their astonishment at the scope of the work undertaken and carried out so successfully by the fair committee.

Buick Show Booth A Popular Space

So many inquiries have been registered at the Buick booth in the automobile show regarding the late model Buick "Four" 5-passenger touring car that the distributor for this territory, H. N. Griffin, wishes to announce that he will have one of these popular cars on exhibit here today.

HIGH SCHOOL ARCHITECT IS HIRED BY CITY

Richard F. Farrell has been engaged by the L. A. School Board to handle the expenditure of the \$150,000 for the Torrance High school.
