**Cooperative Spirit Shown On Every Department**

"Let Me Help" epitomizes the wonderful co-operative spirit shown today in the opening of the fourth annual Torrance fair that bids fair to pass into local history as not only the best exhibition ever held here, but to a mark to shoot at in the years to come.

From General Manager Keeran, and his able assistant, H. D. Pottinger, secretary of the Torrance Chamber of Commerce, to the boy who sprinkled the fair site, everyone seems intent on helping his neighbor, and this spirit of comradeship is one of the outstanding features of the exposition.

Let an exhibitor, however busy with his own problems relative to the installing of his display, discover that his neighbor needs assistance in erecting his booth or arranging his exhibit, and his own troubles are forgotten and the query, "Can't I help?" is followed by instant assistance.

Despite the many handicaps under which the merchants and chambers of commerce have labored in getting together their exhibits, this spirit of helpful assistance has enabled everyone to complete his or her display for the opening day.

**Undersea Base to Remain at L. A. Harbor**

Reports that the Navy Department will not cause the removal of the submarine base from Los Angeles Harbor to San Diego, have been confirmed by the receipt of telegrams from Assistant Secretary of the Navy Roosevelt to Congressman Lineberger.

Major Lineberger was informed that the removal orders issued to Capt. W. R. Miller at the base several weeks ago have been officially rescinded and that the base will remain at its present location.

Assistant Secretary Roosevelt's telegram was as follows: "Department canceled order directing commanding officer of the submarine base to submit plans for removal base from Los Angeles to San Diego. Base will remain at Los Angeles."

**Her Move Next.**

A love-smitten youth who was studying the approved methods of proposal asked one of his bachelor friends if he thought that a young man should propose to a girl on his knees.

"If he doesn't," replied his friend, "the girl should get off."

**STATEWIDE LIQUOR WAR IS PLANNED**

According to reports a general shake-up is expected in the Federal prohibition department, which will result in a liquor war of unprecedented magnitude in this state.

Reports of the pending shake-up were received from authentic sources in circles close to the prohibition headquarters in San Francisco and Los Angeles. Advices are that Samuel F. Rutter, state prohibition director, is to be transferred to another field, probably in Washington, where he will act in an important capacity directly under Commissioner Haynes.

Harold H. Dolley, in charge of the Southern California enforcement bureau, is slated to succeed Rutter as state director. These changes are expected to result in a number of minor changes in the personnel of the field agent.

Rutter, who has had many years' service in governmental departments, will be in a position to assume responsible executive work, by reason of his long experience in actual field conditions.

It is not known who will take Dolley's place here, but it was stated that it would be some outside man who is familiar with the liquor conditions of Southern California.

**Free Fish Friday To Red Haired Girls**

"Free Fish Friday to Red-Haired Girls" is the sign that is conspicuously displayed over the Redondo Beach Chamber of Commerce booth by the Coast Fishing company. That it has attracted merited attention is shown by the fact that the request to have auburn-haired ladies register is being promptly complied with and already scores of titian haired beauties are in line for a fish dinner. Oil drilling machinery of the most interesting kind is another feature of this exhibit, the latter being the product of the Regan Forge & Engineering company of the beach city.
