JIG MERCANTILE DEAL TAKES PLACE HERE

SAM SEELIG NOW OWNER OF RENN'S GROCERY; 15-YEAR LEASE GIVEN ON STORE

As evidence of their faith in the future of Lomita, Sam Seelig, owner of a chain of groceries, meat markets and bakery stores combined, purchased the business of W. A. Renn on Saturday. A fifteen-year lease was given by Mr. Renn to his successor, the former Lomita merchant to retire permanently from active business life, according to his statement today.

The change of management will take place on June 1, when the name "Sam Seelig, Cash Is King," will replace that of "Renn's." It is understood that the new concern will open a market in their new store and install an electric oven for their bakery department. This policy is followed in all the Seelig stores, and Lomita will be no exception along this line, according to unofficial information given the "News Letter."

The very fact that a business firm of the reputation of Sam Seelig, with his wonderful buying power and extensive system of distribution of the staples of life, has decided to locate in Lomita carries with it a tremendous impetus for the welfare of this growing community. The field was thoroughly investigated by the Seelig interests for the past two months. A. I. Stewart, general superintendent, having made five or six trips to Lomita, going over conditions here before they decided to close the deal with Renn. Recently a large store was opened in San Pedro, and at the same time the Lomita deal was closed a similar transaction was contemplated for a lease in another city nearby.

HOW TO KILL ANY ORGANIZATION

By H. H. C. Hammerton
From Mr. H. H. C. Hammerton comes something that every man with any vision at all should carry up his sleeve. Mr. Hammerton knows what he is talking about. He has had enough criticism in Torrance to drive most men to—

1. Don't come to the meetings.
2. If you do, come late.
3. If the weather doesn't suit you, don't think of coming.
4. If you do attend a meeting, find fault with the work of the officers and other members.
5. Never accept office, as it is easier to criticize than to do things.
6. Nevertheless, get sore if you are not appointed to a committee; but if you are, do not attend the committee meetings.
7. If asked by the chairman to give your opinion regarding some important matter, tell him you have nothing to say. After the meeting tell everyone how things ought to be done.
8. Do nothing more than is absolutely necessary, but when other members roll up their sleeves and willingly, usefully use their ability to help matters along, howl that the organization is run by a clique.
9. Hold back your dues as long as possible, or don't pay at all.
10. Don't bother about getting new members. "Let George do it." (Contributed by Publicity Com.)

THE FAIRIES COME

Should you find yourself ill some fine day, and blue and lonely and discouraged, wouldn't it cheer you up amazingly to find that the Fairies thought of and pitied you, when, perhaps, nobody else did? If that ever happens, that blue day, and suddenly your room is filled with a group of smiling cherry child faces, and brightened-up and scented by loads of flowers—then you can safely lay a bet that it was the Fairies. Fairies of the "H.H. of T." ("Sh-h-h!") this is a secret society! and they have been known recently to round up a "clothing shower" for a poor woman whose tiny children needed clothes, shoes, and stockings. Ask where they got 'em? The Fairies always find a way. And you should have seen their faces beam over the joyful surprise! Would to Heaven, all secret societies were as Christian as this!

WATCH BATTLESHIPS FIRE

Many here put out their lights in order to watch the night-firing of the battleships out at sea last week, especially interesting was the glow of the star-shells used to illuminate the location of targets. The old sea-dogs sure can roar; it would be an eye-opener to compute what one target practice costs our Uncle Sam and also the distance out, timing the flashes and the following roar. Er—how many feet per second does sound travel? Eighth grade in mathematics, please answer.

Mrs. C. N. Curtiss has been quite ill recently at her N. Arlington street home.

Mr. Hugh Lincoln of Brea made a brief visit to F. B. Cincola, Monday.

Mrs. Geo. Neill, who has been ill for the past five weeks is reported slightly improving.

Mrs. Frank Sammons and Mrs. C. N. Curtiss were guests at the West Ebbell Club luncheon last Wednesday.

Mrs. Oscar Carlson, nee Orchid Graves Conarro, accompanied by her husband is spending a week or so with Mr. and Mrs. Frank Graves of N. Arlington.

Mr. and Mrs. J. H. Quigley of N. Arlington, their boys and a number of other youngsters nearby, are mourning the loss of their beautiful white Spitz dog "Dicky." It is alleged that "Dicky" was shot under a misrepresentation.

LEGEND

By Rip Van Trees
Of the Llewellyn Iron Works
As I descend from the mountain top I am entranced by the wonderful scene that greets my eye. There is a beautiful plain where golden poppies are all aglow and gentle breezes stir the long, slender blades of green grass.

I look again and in the distance I behold an army of men striving to erect a long metal building. Again I look and still another army is more intently working upon other large buildings in their vicinity. I see other groups working—working—working.
As I continue to gaze, tall chimneys appear, as if by magic, and pan forth dense clouds of smoke. Trains of cars are carrying passengers, machinery and merchandise hither and thither.

Entranced, I continue my descent, wondering whether this is a continuation of my dream, until I meet a traveler.
I inquire the meaning of this picture of frenzied activity. The traveler pauses, gazes into my countenance, then grasping my hand says: "Howdy, Rip; WELCOME TO TORRANCE."
Lomita Fair—June 10-11.

NIGGER SLOUGH TO BE HARBOUR

They say a person can never accomplish much in this world unless he is a man of vision, a dreamer. Now, just shut your eyes and imagine a harbor full of ships unloading their freight, lumber and machinery in Torrance. That is possible. Henry Ford and Thomas Edison says there is nothing under the sun that is impossible. This very harbor has been predicted many times, and if you keep on talking about it the dern thing may come true.
