CHRISTMAS MESSAGE
To the Boys and Girls of the
United States:
Christmas is almost here.
Your great Post Office Department has a big job ahead and needs your help.
Think what it means to be Santa Claus to our 100,000,000 people and deliver Christmas parcels to every family in this great country within the short space of a few days and without disappointment.
It can be done, and we're going to do it if we may have your help. I want to enlist the active assistance of every boy and girl in the schools of our country in getting parcels mailed THIS WEEK to relieve the rush that comes directly before Christmas.
Will you go home today and take this message to your parents and friends:
"Our postmaster has asked us to mail our Christmas parcels this week, for, unless we do, Uncle Sam's load may be so heavy the last few days before Christmas that he won't be able to deliver all the presents by Christmas eve."
The parcels must be well wrapped and tied and addressed plainly in order that they may arrive in good condition with their Christmas appearance unspotted. You can put on your packages: "Do not open until Christmas."
And there must be a number on your house and a mail receptacle, too, for if there isn't Santa Claus' messenger, your letter carrier, may not be able to find the house where the present belongs.
There are some other things, too, in which you can all assist in improving the mail service and in saving our great government millions of dollars a year that is now wasted because of our carelessness—yours and mine.
Every day that you drop a letter in the mail box 40,000,000 other letters are already pushing and jamming through the postal machinery. One letter a day for each family of five persons in the United States is given to Uncle Sam to deliver.
When you send a parcel to the post office for mailing any day there are about 8,000,000 other parcels ahead of yours passing through the postal hopper. This is in ordinary days. At Christmas time it is multiplied many times.
One family in about every ten puts a badly addressed letter in the mail every day. This mixes up over 2,000,000 half addressed letters with the 20,000,000 fully addressed letters. That means that the fully addressed letters must wait on the slow moving, poorly addressed letters just like the larger boys and girls are delayed by a bunch of "bad kids" tagging along.
You boys and girls can help the postal service and save your father some money, because he has to help pay the cost of searching addresses on letters and parcels sent out by this one careless and thoughtless family in every ten.
First find out if your family is the careless one, then bear in mind that your letters must be handled by skilled mail distributors standing in post offices and on swaying postal cars of a mile-a-minute mail trains, often under poor light.
The address on every letter, card, or package must be correct, complete and legible, including the house number and name of street, and the "From" address should be in the upper left-hand corner, so that the mail will be returned to you in case it is not delivered. Do not abbreviate names of States, because so many look alike when abbreviated.
Put the proper amount of postage on your letters and wrap the parcels carefully. Avoid fancy writing, which causes post office clerks and letter carriers to stop and study and thus lose time. Make the address plain and easily read, and always use pen and ink or typewriter and light-colored envelopes, so as to save the eyes of the post office clerks. Do not use envelopes of unusual size. The little ones that are so frequently used for cards and notes at Christmas and other holiday times cause an untold amount of trouble and labor, as they will not fit our canceling machines and must therefore be canceled by hand. Because of their size and tendency to slip out of a package, these small envelopes are more likely to be overlooked or lost.
Mail your letters and packages early in the day, because this avoids overloading and delaying mail at the end of the day.
Your local postmaster and your teachers will tell you more about the Postal Service.
Do these things and you will win the grateful appreciation of the people in your post office and especially of
Your Postmaster General,
WILL H. HAYS.
P. S.—Don't forget to mail your Christmas Packages THIS WEEK.

HOTEL REDONDO WILL BE USED FOR HEADQUARTERS
That Redondo Beach is to be the center of a large portion of the construction work involved in the subdividing of the Palos Verdes Ranch into a choice residence section is indicated in the announcement that the Redondo Hotel has been leased by the E. G. Lewis Company and will be used to house employees who are to begin active work on the hills within a short time.
The obtaining of the Redondo Hotel is but the first step in the housing problem which the company faces, as over three thousand men are to be working there within the next six months, and many of them must find homes here.
The news did not come as a complete surprise to Redondo Beach, as it has been generally known that this section has been in for a large portion of the development work, and the fact that the choicest residences there are said to lie on the west slope of the hills adjoining the beach, and that the chief engineer of the project, Prof. H. T. Cory, chose Hermosa Beach as his place of residence has been indicative of the fact that the company plans that a great, if not the greater, portion of the actual development work would be done through Redondo Beach.
No land reclamation project of greater portent has ever been attempted in the southwest, the amount of money being expended there, which reaches close to \$40,000,000, coupled with the stupendously elaborate plans which Mr. Lewis is working out for the actual improvement of the tract, make it decidedly distinctive for a number of special reasons. It is the plan of the instigators to have everything in readiness before a single lot is sold, and to have the territory itself beautified and in a choice, liveable condition before any buildings whatsoever are erected, now finished and is to be on display in Los Angeles either the latter part of this week or the first of next week, shows in every detail the surrounding territory and the attractive possibilities of the location. Redondo Beach is depicted on the map with a truly realistic fineness of detail, every large building and every street is indicated, and the same wonderful treatment has been given every city within the immediate radius of the section.
Of particular interest is the relief map shown of the plans which Mr. Lewis had in mind for the location of the new University of Southern California, which now seems an assured fact for this region. It has been tacitly understood that the board of regents will not refuse Mr. Lewis' splendid offer of a million dollars in cash and the choice of 1000 acres of the tract, establishing the university there shortly.
The map will be placed in some prominent place in Los Angeles probably in the P. E. Depot on Main street, so that everyone can obtain a comprehensive understanding of what the new project will mean to Southern California.—Redondo Reflex.

AN OLD FRIEND BACK AGAIN
He was being examined preparatory to taking out an insurance policy.
"Ever had any accident?" asked the doctor.
"Nope."
"Never had an accident in your life?"
"Nope, 'cept maybe last spring, when a bull threw me over the corn crib."
"Don't you call that an accident?"
"Gosh, no! He did it on purpose."
For accident insurance see A. H. Bartlett, room 108 First National Bank Bldg., Torrance.—Advertisement.

TO THE STOCKHOLDERS
NARBONNE RANCH WATER COMPANY NO. 5
November 25, 1921.
At the last meeting of the Board of Directors a motion was passed providing means whereby every Stockholder, whether able to attend the annual meeting or not, might cast his vote for the Directors of his choice.
For the past six years a sufficient number of shares has not been represented at the annual meeting to permit of holding a legal election according to our bylaws. Therefore, the old Board automatically were required to serve. Vacancies have from time to time been appointed by the remaining Directors.
The accompanying Ballot must be marked, sealed in its voting envelope and mailed or presented to the Secretary, so as to be in his possession before 7:00 P. M. of January 9th, 1922.

SAMPLE BALLOT
JANUARY, 1922
FOR THE ELECTION OF FIVE DIRECTORS FOR THE NARBONNE RANCH WATER COMPANY NO. 5
The following is a complete list of Stockholders, together with their last known address as shown by the books of the Company on November 1, 1921.
VOTE FOR FIVE DIRECTORS
NOTE—The five Stockholders receiving the highest number of votes will be elected Directors for the ensuing year. In the event that one or more of those elected will not serve, the next highest in receipt of votes will be considered elected.
To vote for a Director mark a Cross in the circle in front of the party's name:
