PALOS VERDES ESTATES TO TAKE TITLE ON DEC. 5

Henry Clarke, director of sales of the Palos Verdes estates, announced that he and his organization of seventy men had started the most intensive selling campaign in the history of the big project.

Under the direction of E. G. Lewis, general manager of the huge enterprise, the drive began Saturday to dispose of all the non-convertible notes at the earliest possible date, to facilitate the progress of plans for the construction of the proposed \$35,000,000 city on the 16,000-acre tract between Los Angeles Harbor and Redondo.

It was announced by Mr. Lewis that the next increase in the subscription price of non-convertible notes would be from 102½ to 105½ and later to 107½ and then to 110, to equalize the underwriting.

Plans are being completed by Mr. Lewis and his associates for the mass meeting of the underwriting subscribers to the project to be held at the Philharmonic Auditorium in Los Angeles on the evening of December 5, to celebrate the taking of title by the Title Insurance and Trust company, as their trustee, of the big tract.

Arrangements have been made by the executive staff of the organization to have the selection map prepared for the note holders by Christmas morning.

The men in charge of this work include Frederick Law Olmstead, noted landscape architect; H. T. Cory, chief of the engineers; Myron Hunt, chairman of the art jury and Charles H. Chenney, well-known city planner.

These officials have established headquarters at the Redondo Beach hotel, which was recently leased to Mr. Lewis for three years by the city of Redondo at a rental of one dollar a year.

Will Ask Survey For Railroad to Harbor

Councilman Sanborn of the Los Angeles city council is preparing a resolution to be presented to the council calling on the board of public utilities to make a survey with a view to establishing a unified railroad from the center of Los Angeles to the Harbor. He also intended to ask the utilities board and the state railroad commission to work out a plan to have all railroads use one line to the Harbor, so as to avoid grade crossings.

Harbor Now Open To All Immigrants

Immigrants from all parts of the world may now land at Los Angeles harbor according to advices received last Saturday from the trade extension department of the Los Angeles chamber of commerce. Provision also will be made for the handling of Chinese in transit, which means that Orientals bound for Cuba and eastern points may be brought into Los Angeles harbor in bond and transhipped, instead of being forced to go to a northern port, as heretofore. This ruling puts the Los Angeles immigration station in full operation.

Big Crowd Attends Fete at Redondo

The official opening of the new Redondo concrete "Broad Walk" and lighting system was attended by about 15,000 people Saturday night. The improvement extends from Redondo to Hermosa, and together with the electrical system and protective jetty system cost in the neighborhood of \$50,000. It was financed by a municipal bond issue. The new promenade replaces the one destroyed several years ago when unprecedented high waters did considerable damage along the coast of Southern California.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.
