ORDINANCE NO. 49

AN ORDINANCE REGULATING SIGNS AND BULLETIN BOARDS WITHIN THE CITY OF TORRANCE.

The Board of Trustees of the City of Torrance do ordain as follows:
Section 1. It shall be unlawful for any person, firm or corporation to erect, place, suspend, attach or maintain, or to cause or permit to be erected, placed, suspended, attached or maintained any sign, sign-board or sign device of any kind or character upon any portion of any fire escape or upon or to any standpipe.

Section 2. It shall be unlawful for any person, firm or corporation to erect, place, suspend, attach or maintain, or to cause or permit to be erected, placed, suspended, attached or maintained, any sign, sign-board or sign device of any kind or character horizontally upon or in front of any building above the first story thereof, except in such manner that such sign shall not extend below the lintel nor above the sill of any window in such building, nor project more than two feet from said building into any street or alley.

Section 3. It shall be unlawful for any person, firm or corporation to erect, place, suspend, attach or maintain, or to cause or permit to be erected, placed, suspended, attached or maintained, any sign, sign-board or sign device of any kind or character upon the face of any wall, that shall extend above the fire wall; provided, however, that the provisions of this section shall not apply to any sign, sign-board or sign device constructed upon a fire wall prior to the adoption of this ordinance; but signs may be painted upon said walls or fire wall.

Section 4. It shall be unlawful for any person, firm or corporation to erect, place, suspend, attach or maintain, or to cause or permit to be erected, placed, suspended, attached or maintained, any sign, sign-board or sign device of any kind or character in such a manner that the same shall project more than six inches into any street from any property line or more than six inches from the face of the building in front of which such sign, sign-board or sign device is maintained, if the lowest portion of such sign, sign-board or sign device is nearer than seven feet from the surface of the street or sidewalk over which the same projects.

Section 5. Any sign, sign-board or sign device shall be deemed to be erected, placed, suspended, attached and maintained upon a building within the meaning of this ordinance if such sign, sign-board or sign device is attached or fastened to any appliance or apparatus of any kind that is attached or fastened to such building.

Section 6. It shall be unlawful for any person, firm or corporation to erect, place, suspend or maintain or to cause or permit to be erected, placed, suspended or maintained, any sign, sign-board, billboard or sign device of any kind or character larger than twelve square feet in area unless the same be painted upon the side of any business building or unless the same be constructed upon or against and securely fastened to such business building, in which latter cases a sign of dimensions not exceeding six feet in height and 10 feet in length may be used, provided signs of not to exceed 10 feet height, with base not less than three nor more than four feet from the ground may be erected in the residence district after obtaining the written consent of the owners of all property used for residence purposes within 600 feet or said signs. This section shall not apply

to so-called electric signs but special permits for same may be granted by the Board of Trustees upon such conditions as they shall deem just.

Section 7. It shall be unlawful for any person, firm or corporation to erect, place, suspend or maintain or to cause or permit to be erected, placed, suspended, or maintained, any sign, sign-board, billboard or sign device of any kind or character in the City of Torrance except for the purpose of advertising the name of the person, firm or company occupying the property on which said device is erected or by whom said property is owned or advertising the business carried on on said property or advertising such property for sale.

Section 8. No sign, sign-board or sign device of any kind shall be erected or maintained within twenty feet of that line of any property adjoining any street, road, court, place, alley or sidewalk unless the same be built directly against or painted upon the wall of a building.

Section 9. That nothing in this ordinance contained shall be construed to prohibit the following:

1st. The erecting, placing or maintaining of any street clock which has a dial not less than twenty-four inches nor more than forty inches in diameter, the whole supported upon a well painted iron post of ornamental design, or the said clock suspended from or supported by the corner of the building at an intersection of streets at a height, not less than fifteen feet nor more than twenty feet above the said street, if securely fastened or suspended by the construction sufficient in strength to sustain four times its weight.

2nd. Every such bulletin board shall be so constructed as not to obstruct or interfere with ingress to or egress from such theater, provided, however, that it shall be unlawful for any person, firm or corporation to erect, place or maintain any such clock or any such bulletin board without first obtaining a permit in writing so to do from the building inspector of the City of Torrance.

Section 10.
