Ford Steel Body Truck \$490
 L. o. b. Detroit

Why Commercial Users Prefer the Ford

There is much significance in the fact that more than 75% of all commercial cars of one-ton capacity or less in the United States are Fords.

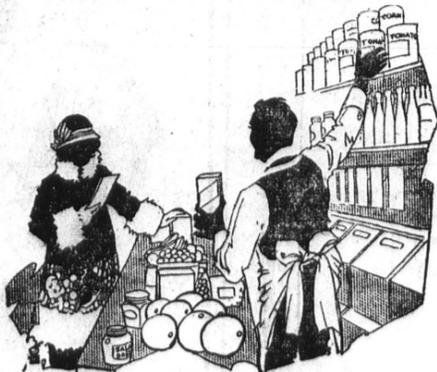

This overwhelming preference for Ford haulage units has its basis in the low cost of Ford transportation, the rugged construction of the truck itself, and its unusual adaptability to every line of industry. Mechanical excellence, simplicity of design and ample power are further factors that have contributed to the popularity of the Ford One-Ton Worm Drive Truck.

The Ford One-Ton Truck equipped with an all-steel body and cab is now available as a complete unit, priced at \$490 l. o. b. Detroit. Screen sides and canopy roof that may be easily fitted to this unit are supplied at small additional cost.
