A history maker—and still the Leader!

THE Studebaker Light-Six—a history maker—the first fine six-cylinder car under 3000 pounds at a four-cylinder price.

The product of a company with a world-wide name for quality transportation goods—a company which built a great factory, one of the finest industrial plants in America, to make just this one car.

A car with followers, imitators and adapters by the score—but with no rival in quality, popularity and sales volume. It is still the Leader!

A car built to fulfill the ideal of producing the greatest automobile value in the \$1000 field—the car which started the stampede from fours to sixes.

A car with a specially designed offset valve motor of remarkable quietness, economy, power and freedom from vibration—a troubleless, sweet-running motor with tenacious resourcefulness of power on the hills, the straightaway and the pickup!

A car comfortable, roomy, good-looking, very easy to handle on the road, in traffic or in parking—long-lived, low in first cost and especially low in up-keep costs. The market's one best bargain for the man who wants all the car he can get at about \$1,000.

A car that is an investment, not an expense, because it can be bought on very liberal terms, sold or traded in at a very high resale value on a market always ready and waiting for a used Light-Six Studebaker—its popularity and demand as a used car are the most convincing evidence of its goodness as an automobile.
