Ticker's Tips

Dear Friends:

A man was in the store
 the other day to get his
 watch regulated. It didn't
 need any, as it was right
 to the dot.

I was in the back of the
 store and heard the con-
 versation. This man told
 Howard's that he always
 has had a lot of trouble
 with that watch until he
 brought it here to be fixed
 three months ago. He
 hasn't had to set it since.

That was some compli-
 ment and it made the boss
 feel good, but he gets a
 lot of that kind because
 he's mighty particular
 about his repair depart-
 ment. Every piece of work
 that goes out of here has
 to be just so.

Ticker.

P. S. They fix other
 things besides watches
 here too, most any article
 of jewelry in fact.
