**CHRISTIAN SCIENCE CHURCHES**  
 James' words, "Every good gift and every perfect gift is from above, and cometh down from the Father of lights, with whom is no variableness, neither shadow of turning," is the Gospel Text in the Christian Science Lesson-Sermon on "Reality," Sunday, September 27, in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.  
 Among the Scriptural selections are Paul's words to the Corinthians: "And I, brethren, when I came to you, came not with excellency of speech or of wisdom, declaring unto you the testimony of God. . . . And my speech and my preaching was not with enticing words of man's wisdom, but in demonstration of the Spirit and of power: that your faith should not stand in the wisdom of men, but in the power of God. Howbeit we speak wisdom among them that are perfect: yet not the wisdom of this world, nor of the princes of this world, that come to nought."  
 One of the correlative excerpts from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, says: "All the real is eternal. Perfection underlies reality. Without perfection, nothing is wholly real. All things will continue to disappear, until perfection appears and reality is reached."  
 Old Stone Cannon Ball Found STOCKHOLM.—An ancient cannon ball of stone, dating from the early 14th century, has been found here during excavation of the Skeppbron Embankment.

**Class Rally Day To Be Held Next Sunday**

**How Much Blame Must Poor Lighting Bear For His Handicap**

HE'S DOING MUCH BETTER in school, now that his eyes have been attended to. But what a pity that it had to be.

Little eyes, straining over strange, puzzling lessons, need every help that we can give them. And let's give that help, with proper lighting, before it is too late. Eyesight once impaired may never be fully restored. We don't want our boy or girl handicapped all life through.

If you are in doubt about proper light for your reading table, for the children's study desk, and their play-room; if you find kitchen work becoming more difficult, now as the days grow shorter, call in an Edison lighting engineer and get his expert opinion. It will cost you nothing. It may save you much, in greater cheer and comfort, in prettier rooms, and in insurance against vain and endless regret.
