Republican Candidate for Congress from 17th District.

gressional district of which Torrance and Lomita are a part. Mr. Henning is well known in this community and at present is serving his second term as a member of the Los Angeles city council from the Harbor district, which includes the Shoe String Strip adjacent to Torrance. He has a 12-year record of civic and political service to the harbor area, having held the office of president of the San Pedro Chamber of Commerce, president of the Harbor District Chambers of Commerce, president of the San Pedro Rotary Club, general chairman of the first Community Chest drive in the harbor district, and various other civic offices. For the past three years he has been chairman of the Los Angeles-Long Beach joint city breakwater committee.

Prominent Rotarian
"Chick" Henning is very well known to local Rotarians, as he was one of the members of the San Pedro Rotary Club which sponsored the Torrance club and assisted in its organization. He is also a member of the Masonic and Elks lodges.

Platform
Henning is a staunch Republican and for the past six years has been a member of the Republican County Central and Republican State Central committees. He pledges his whole-hearted support to the Republican party platform adopted last June in Chicago. He advocates a general manufacturers' sales tax on all commodities except the necessities of life as the most equitable and just form of taxation. He also favors the elimination of disagreeable nuisance taxes.

Relief Program
Henning also favors the five-day week and six-hour day plan and believes that relief to the unemployed should be provided by a continuous public improvement program of self-sustaining projects which will not increase the burden of taxpayers. Henning is opposed to cancellation of foreign debts.

Announce Excursions For Over Labor Day

Excursion and vacation travel in western states over the Labor Day period this year will have the stimulus of cent-a-mile train rides, to be offered by the Southern Pacific Company, September 1 to 5, inclusive, according to word received here today.

The low fare roundtrip program, it was stated, will blanket the railroad's lines in California, Oregon, Nevada, Utah, Arizona, and New Mexico, including El Paso, Texas.

Persons using the cent-a-mile fares will have until midnight, September 12, to complete their journeys. Under this arrangement, it was pointed out, ample time is provided for long-distance travel.

Safeway Stores Find National Brands Satisfy

Public Better Pleased With Familiar Advertised Goods

Handling and featuring nationally advertised foods, particularly those advertised in local newspapers, has proved so satisfactory for Safeway Stores that according to an announcement by their president, M. B. Skaggs, this big food distributing concern will, in the future, confine practically their entire effort to this policy.

"We have found," Skaggs said, "that the buying public is much less skeptical and better satisfied when offered brands with which they have become intimately familiar through reading about them in their own newspapers than is the case when they are offered an unknown brand, even though the quality of the unadvertised article may be fully as good as that of the well advertised item. Somehow, people seem to instinctively mistrust merchandise whose makers are unwilling to come out in black and white and tell the public about it."

"Advertised brands, particularly those featured in the local papers in towns in which we have stores, require little or no selling effort and there is rarely any complaint about either quality or price. If anything should be wrong with the advertised goods the purchaser does not blame us but places the blame upon the manufacturer, where it properly belongs. Moreover, when buyers see an item advertised by the manufacturer in the same issue of the paper in which we are offering that item for sale they know, immediately, right where they can get it and we, as well as other merchants, find our own advertising more effective and satisfactory. In fact our experience with the sale of foods advertised by the manufacturer in the same local paper in which we advertise has been so satisfactory that we plan to lend our major support to such items."

Skaggs further announced that his concern had practically discontinued the use of handbills and circulars and would, hereafter, confine their advertising almost exclusively to newspapers. He said their experience in nationwide merchandising had convinced them that the local newspaper is the most economical and effective medium for reaching the public and they were, therefore, eliminating practically all other forms of printed advertising.

RUM FUND BUYS OIL
LOS BANOS, Cal. (U.P.)—Los Banos' street are to be oiled, and if thirty members of her citizenry want to get likewise, they may do so, as far as the City Council is concerned. The city's prohibition enforcement fund was transferred to the road department.

Ben Hill Is Popular Man For Assembly

Rendered Valuable Assistance to Torrance Industry at Last Session

Ben Hill, candidate to succeed himself as state assemblyman on the Republican ticket is seeking re-election on his record and is ready to defend his actions in the last legislature on the merits of the situation.

When one of Torrance's important industries was threatened by legislation that would have crippled its business, Hill vigorously fought and won the battle to protect this local factory.

Platform

Summing up his platform this week, Ben Hill said:

"I refused to be dominated and controlled by machine politicians of Metropolitan Los Angeles, in the speakership and reappointment fight, and supported for speaker, a man favorable to just reapportionment for the Harbor district; therefore, I secured for the Harbor district, the most compact and perfect congressional and assembly districts in the state, the most important civic achievements we probably have ever obtained."

"I fought continuously for efficiency and economy in government."

"I was co-author of the new law restricting and limiting street assessments, which will save millions of dollars to home owners and property owners."

Election Assured

Assemblyman Hill is receiving the enthusiastic support of a great number of local voters, who regard him as the one outstanding candidate in the race for the state assembly. It is freely predicted by those close to the political situation that he will be renominated by a much larger majority than he enjoyed when he was first elected two years ago.

In an address made August 19 before the Teachers' Association meeting at San Pedro, Mr. Hill came out strongly opposed to various increases in public expenditures. In view of the recent statement from the county superintendent of schools that school taxes would have to be increased approximately 19 cents this year, Mr. Hill's remarks will be regarded as timely and favorable to the oppressed real estate owner.

He said in part: "I believe in education. It is the basic foundation of civilization and of any government. Without it no nation or people can advance."

"However, I am opposed to the modern fanaticism of wild and extravagant expenditure of public money in any and all governmental agencies, without any thought whatsoever as to how the bills are going to be paid."

"Governmental and school costs

have increased so rapidly and so disproportionately to other expenditures that it has become alarming."

"Since 1911 the California bonded debt has increased from \$5,677,500 to \$114,373,500—an increase of nearly 2000%; in 1917-19, the California budget was \$61,000,000; in 1931-32 the budget was \$265,000,000. The approximate costs of government in Los Angeles county last year, according to the Los Angeles bureau of municipal research, was \$317,444,314.00, including federal, state, county, municipal and special, making a per capita tax burden of approximately

\$150.00 per year for every man, woman and child in Los Angeles county."

"In 1921 the Los Angeles city school budget amounted to \$12,391,072; in 1931, the school budget for the same district was in excess of \$96,000,000, three times as much as in 1921; our per capita school tax is 50% higher than the average national per capita cost and 72% higher than the average cost in the 12 largest cities in the United States."

"According to the Los Angeles bureau of municipal research, the proposed budget for Los Angeles city, county and school expenditures is \$153,000,000 more than the total estimated revenue."

"The tax burden on real estate is confiscatory and unbearable; people have lost their homes, and the desire to own a home has been killed by the fear of tax confiscation."

"I wish my own children, and all other children, to be well educated but in order to insure the continuance of our educational system, these increasing costs must be curbed. We must avoid a repetition of what is now happening in Chicago."

"I am fundamentally opposed to any and all class and discriminatory legislation."

"I am opposed to any legislation against women in gainful occupations, because it is discriminatory against women."

"I am opposed to the so-called teachers' tenure, because it is discriminatory in favor of one class; and because it practically guarantees life employment, overlooking the ultimate aim of education—the welfare of the child."

"Unbossed Bench" Is Gray's Slogan

Speaking before a mass meeting at the Los Angeles high school last week, Brigham Gray, prominent lawyer and candidate for the superior court, office 18, pointed out that both his opponents are incumbents. "If the bench is to recapture the confidence of the people," Gray declared, "there must be a change; there must be a return to basic principles of honesty and integrity." Mr. Gray stated that he will speak next Thursday night at five minutes to ten, over station KHJ on "An Unbossed Bench."

"According to the Los Angeles bureau of municipal research, the proposed budget for Los Angeles city, county and school expenditures is \$153,000,000 more than the total estimated revenue."
