CITY TO BUY LIGHT CAR FOR POLICE DEPT.

The Torrance police department will soon own a new patrol car, according to plans announced at the city council meeting Tuesday night. Bids have been called for the purchase of a new light car, costing under \$1000, to replace the heavier car now in use.

HAND INJURED IN LABOR ACCIDENT

M. R. Houdashelt, residing at the Plaza hotel, a blacksmith's helper at the International-Stacey Corporation, was treated at the Jared Sidney Torrance Memorial hospital Tuesday for lacerations and a broken bone in one hand, injuries received while at work.

Aged Woman Is Struck By Truck

Mrs. Ella G. Conaway, age 72, was taken to the Jared Sidney Torrance Memorial hospital shortly after 9 o'clock yesterday morning where she is being treated for several severe cuts and bruises and a possible skull fracture. Mrs. Conaway, who resides at 2516 Walnut street, Lomita, apparently became confused in crossing Wilmington-Redondo boulevard and is said to have walked into the path of a delivery truck operated by the Overall Cleaning Company of Long Beach, driven by David N. Ruryer, 1825 McKenzie street, in that city.

Stars Used In New Method of Determining Boundary Lines

Owners of real estate in this community and other sections of the county soon will have a convenient means of determining the exact boundary lines of their property with the start of the triangulation survey by the county surveyor's department. "Starting points" throughout the county at present are comparatively few, and miles apart, according to Oliver D. Keese, chairman of the joint committee on survey control. Triangulation is a method of measuring distances and directions over an area on the earth. The original surveys for this area were made by the U. S. geodetic survey, when townships and sections were laid out in the last century. Since then the county flood control district, the Los Angeles water and power bureau and the Metropolitan water district have established their own control systems in this and other sections of the county, Keese explains. The triangulation net is really tied to the stars. By means of data furnished by astronomers, engineers can determine latitude and longitude of any point of observation. All of the work is done at night, to eliminate effect of heat rays. Special light boxes are suspended over established points, and observations taken from various other stations by highly accurate instruments. Four of the principal points in the county are Mount Wilson, San Pedro Hill, Oat Mountain, near San Fernando, and Castro Peak, in the Malibu Mountains. Observation stations will be set up at the start on the 150-foot gas tank at Western and Stauson avenues, and atop the George Washington school at 109th street. At each established point a marker will be buried, and at eight of these points in the San Gabriel mountains it will be necessary to pack in equipment and materials for the surveys and markings, Keese stated. It is estimated the survey will require 4 to 10 years, depending upon the number of men employed, and number of stations.

Enrollment At Narbonne High Is Increased

Total For Opening Day of New Semester Shows 744 Pupils
Enrollment figures for the opening day of school at Narbonne high school showed an increase of 45 pupils over the total registered on the opening day last year. This year 744 pupils entered the classes, as against 699 for 1932. Increase in this total by next Monday is expected as a number of late comers will register during the first few days of school. Practically no changes in personnel have been made at Narbonne, according to Principal Clementina de Forest Griffin, with the exception of one new teacher, Dewey Roland, and two substitute teachers who are filling in at posts until the regular teacher arrives. Miss Ada Gunn is substituting for Miss Holloway who has been on a trip to Europe, and who has been delayed in reaching home. Miss Isabel Jackson is substituting for Miss Chadwick, who has been traveling in Mexico. Miss Chadwick was involved in an airplane accident, and while the plane was demolished when it crashed on a mountain top, no one was injured, and the pilot was forced to travel on muleback to the railroad with consequent interruption to the schedule. At the Grange street school, a total of 371 pupils were registered, which, according to Principal Hilda Jellison, is about the same enrollment with which the school closed last spring. Some classes are being held on half-day sessions at this school, owing to the failure of the school board to order repairs to the rooms damaged by fire last year. One additional teacher, Miss Veronica Carroll, has been assigned to duty. She will have charge of the music department. Three teachers were added to the staff at the Lomita elementary school, according to Miss Harriet Michaels, principal. They are Miss Rennie Jean Gregory, A-2, who has returned to the school after a year's absence; Mrs. Lena Gaertner, A-1 B-2; and Mrs. Mary Paisley, A-3 B-4.

More Sheriff's Cars Get Receiving Sets

Installation of radios in several sheriff's cars that patrol the Lomita and other unincorporated sections of the county will be begun soon, with the allocation of \$4000 by the board of supervisors. The supervisors turned down a proposal of various police chiefs that a teletype system be installed, linking the sheriff's sub-stations with practically every municipality in the county. The cost, seven times that of radios, was too much at this time. The sheriff's department will broadcast its messages through radio KGPL to all its cars, paying the Los Angeles police department a toll for each message. Effectiveness of the network for criminals throughout the county will thus be enhanced.

Local Oil Fields Curtail Production

Production at the Ingleswood, Lawndale and Torrance oil fields was under curtailment today following adoption of the NRA code which went into effect September 8. Allotment for California crude production now is limited to 480,000 barrels daily. Just prior to the code's effective date, crude oil production reached the highest day's production in more than two years, 521,717 barrels, on September 7. Production at the local wells for the week ending Friday, September 8, was as follows: Ingleswood, 11,000 barrels; Lawndale, 250 barrels, and Torrance, 6500 barrels.

Improve Boulevard In Redondo Beach

The county road department today prepared to proceed with the improvement of Torrance boulevard in Redondo Beach, following action of the board of supervisors on Monday in acquiring jurisdiction over the section to be improved. The link temporarily taken into the county system of highways extends from the west city boundary of Torrance 260 feet westerly. The work will be done under cash contract, according to George Jones, county road commissioner.

Small Crowd of Local Workers Attend Meeting

R. W. P. U. Call For Mass Meeting Tuesday Gets Small Response

A small crowd of about 50 persons assembled at the residence of W. H. Smith, 1554 West 218th street, Tuesday night in response to the call of the Relief Workers Protective Union for a mass meeting to discuss matters to be laid before the board of supervisors and the county welfare department.

Among the propositions listed in a circular letter sent out to various units of the unemployed associations in this territory are a demand for a six-hour day at a scale of \$4 per day, with a minimum employment of 10 days per family and two days additional for each dependent, during each 30 days; seven days for single workers during each 30 days; immediate abolition of all unpaid (forced) labor; direct relief equivalent to work orders for all unemployed; opposition to evictions and cutting off utilities; repeal of the sales tax and tax the rich; moratorium on taxes and assessments for two years, no foreclosures on mortgages and trust deeds of all small home owners; recognition of committees of unemployed in all welfare offices.

Organizations claimed in the circular to be joining with the United Front Conference Against Hunger, with headquarters at 741 Wall street, Los Angeles, under which caption the circular information and appeal was set forth, were the Relief Workers Protective Union, Hondo Protective League, Area Group of San Pedro, Socialist party branches at Lynwood and South Gate; Communist party; American Voters Association; Trade Union Unity League; Highland Park Youth Club; Unemployed Taxpayers Association; Area Group No. 26; seven U. C. R. A. units not named; Young Communist League; Women's Council; International Labor Defense, and the Unemployed Veterans of Torrance. Managers of the Torrance Unemployed Veterans Relief Association, and the Carson Street Unemployed Relief, denied that either of them had associated themselves with the group or had authorized the use of their names or were taking any part in the movement, which is in preparation for a widespread "hunger march" called for October 2.

Kalif. Klavalliers Purchase Hall; To Give Dance Saturday

Members of the Ka Klux Klan, their wives and friends, are invited to attend the Klavalliers' dance to be held in their hall, Saturday evening, September 16. The California Klavalliers recently purchased the old American Legion hall on Border avenue, which is to be used as the regular meeting place for the lodge as well as for social affairs. Through an error in last week's issue, it was stated that the Klan had purchased the hall, instead of the California Klavalliers, who are the new owners.

WINERY BUILT ON FAITH DELIANO, CAL. (UP)—Construction of an \$85,000 winery was under way on the Walter J. Wallace ranch near here. Wallace expressed belief the 18th amendment would be repealed by the time this new venture was completed.

"I've kept track of the money it saved us this month"

"HERE it is—all put down. Whenever my telephone relieved me of a trip downtown, I made note of the nickel, dime or quarter saved. They soon amounted to more than the price of telephone service, and I also have the telephone for calling friends, making appointments, hearing from others and being in touch with the world. It's true, and I've proved it—the telephone in the home costs so little and does so much that it simply doesn't pay to be without one."
