### "BILLY" KERBER IS SURPRISED

Mrs. Al Kerber, known to her intimate friends as "Billy," arrived at her—well, no matter which—birthday last Saturday, September 23, and fell a victim to the secret plans of her friends in the 31-33 Club who entertained her royally at Earl's Cafe until a late, or rather early hour Sunday morning. "Billy" had planned a dinner, theatre party and other diversions for the evening, but when she entered the cafe about 3:30 Saturday evening the plans she had concocted were immediately discarded. For once in her life "Billy" was completely taken aback. Her face turned a delicate pink, she stutted, stubbed her toe and sat down weakly in the nearest chair. But she soon recovered her accustomed poise and the gaiety of the evening was in full swing.

Refreshments were served and "Billy" was presented with a number of lovely gifts. Music was furnished by the Masonic orchestra for dancing. Guests included Messrs. and Mesdames H. A. ## What statewide branch banking means to Californians

1. It provides the same type of metropolitan banking facilities for the smallest communities of the state as it does for the largest.
2. Funds from a great reservoir of capital are quickly diverted to any section of California that requires special seasonal financing.
3. Stability of statewide industry and agriculture is enhanced by this quick movement of needed capital.
4. By keeping its resources in 243 cities instead of having to confine them to any one section, exceptional protection is afforded depositors. It is obvious that economic set-backs in any single locality could have but little effect upon the entire state.
5. Therefore, your money deposited with Bank of America is protected by assets based on the diversified industries of one of the world's richest empires—California.
6. Your money in a Bank of America savings or commercial account is actually helping to finance, not just a single community, but the vital industries of all California—agriculture, horticulture, lumber, livestock, manufacturing, oil, fisheries, shipping, wholesale and retail business, and home building.
