REGULAR MEALS AND LUNCHEES

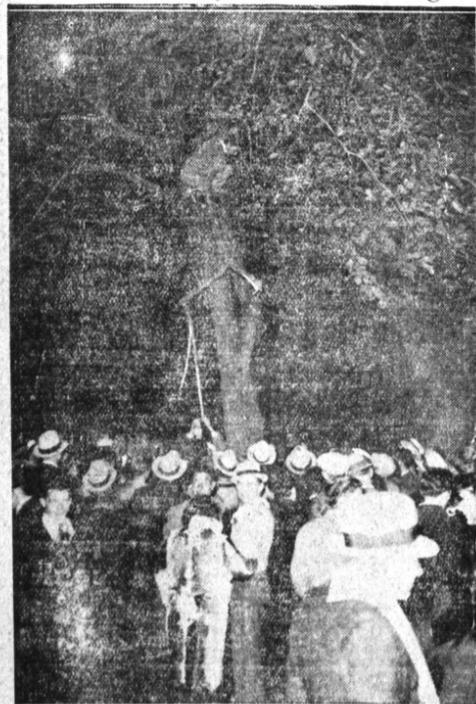

E. K. MORSE, Manager

TWO GRAPE CROPS IN SEASON

BOISE, Ida. (U.P.)—Another freak crop record appeared here to match four crops of alfalfa and two crops of apples, all in a single season. J. L. Eastman, Boise

farmer, harvested two distinct grape crops this season. The second blossomed about the time the first ripened. Abnormally warm autumn weather was credited as the cause.

Where Kidnaper Was Hanged

Seeking a souvenir of the first lynching in California in 13 years, a San Jose youth cuts the limb from the tree where, Sunday night, Jack Holmes paid with his life for the confessed kidnaping and slaying of Brooke Hart, wealthy San Jose youth. Holmes and his companion, Thomas Thurmond, were taken from their cells in the San Jose jail and hanged to trees in an adjoining park.

'Battering Ram' Lynch Mob Storms San Jose Jail

Working in relays under blinding tear gas shot out by peace officers in an attempt to stop the lynching of Jack Holmes and Thomas Thurmond, confessed kidnapers and slayers of Brooke Hart, San Jose residents mannaed a heavy length of iron pipe to break down steel doors of the jail. After gaining admittance, the mob dragged the struggling pair of prisoners to a nearby park, where they were hanged.

Notes From Washington

By Charles J. Colden
Congressman, 17th District

A large number of governors, mayors and other prominent officials from every part of the land recently gathered in Washington to hear the details of the CWA and to ask questions and get explanations of the new program to provide employment. The CWA dispenses with the dolo or direct relief for those able to work and provides for regular employment at current wages. Mayor Frank Shaw and Supervisor John Quinn were among those in attendance. Harry L. Hopkins, who has been identified with the Federal Emergency Relief Administration, presided and explained the provisions of the CWA or Civil Works Administration. And this fellow Hopkins would be called a "bumdinger" out in Missouri.

I didn't know you could enthrall the audience and mayors but the audience was thrilled and applauded often and vigorously. The idea of providing work instead of charity met hearty approval and is a new departure in the great battle with the depression. This new plan proposes to give the unemployed a job at decent wages instead of permitting them to remain dependents and compelling them to beg for food and clothing. It is a long step forward and undoubtedly will be hailed in welcome words by the vast army of unemployed who have been faced by deprivation and despair.

The Civil Works Administration starts its program with 400 million dollars and plans to put four million men to work within 30 days. Putting that number of men to work within such a short period seems a super-human task. And the large appropriation will not last very long but evidently the proposers are expecting more funds when the present appropriation is exhausted. Of course there are doubters and scoffers but the C. W. A. is another demonstration that President Roosevelt and his staff are in deadly earnest to put this country back on the road to recovery.

It was stated by Administrator Hopkins that disappointment was lessened by the fact that the Public Works Administration had been so long in getting under way. He frankly acknowledged that many of the appropriations had been made for projects that were moving too slowly. He placed the blame for the delay on the time required for plans and engineering and other technical requirements. Some of the states are responsible for the delay in getting public improvements under construction. This new program is to afford employment until the bigger program gets under way. So another attack has been launched against the depression in this greatest battle that has ever been known in times of peace.

The Subsistence Homestead provision of the NRA was not very widely discussed in Congress at the time of the passage of the act but is full of promise and may play an important part in the future of our country. The purpose of the Subsistence Homesteads is to provide small tracts for the workers who are employed for but a part of the year. The few acres will enable the workman to raise chickens, a garden, keep a cow perhaps and raise a large part of the food required for the family.

The first Subsistence Homesteads were selected in West Virginia for the benefit of coal miners who have not had steady employment. An eleven-hundred-acre farm was purchased. It is to be divided into small farms of from two to four acres and the purchaser given 20 years in which to pay for his home. The payments will be small and the interest low. The homes will cost about \$2000 each.

The University of Georgia is sponsoring a Subsistence Homestead project of 16,000 acres and has asked Uncle Sam for a loan of two and one-half million dollars to carry out the scheme. This idea is taking root in scattered sections of the country and is re-

CRIME DECREASING IN STATE, REPORTS CHIEF

SACRAMENTO, (U.P.)—A continued decrease in crime as reported to the state division of criminal identification was revealed in statistics just announced by Clarence S. Morrill, division chief.

The report showed 32,329 cases for the first nine months of the year as compared to 37,612 cases for a corresponding period last year.

The October totals were: 1933, 2,979; 1932, 3,657.

UNUSUAL FAMILY RECORD

SALT LAKE CITY, Utah, (U.P.)—Fifty years of marriage without a death in the family is the record of Mr. and Mrs. J. C. Mackay. Ten sons, two daughters, 48 grandchildren and two great-grandchildren honored the couple at their golden wedding.

emental machinery of the demoralization in public and private life, is all stain or tolerated. The American people are definitely aroused in a determination to clean up this source of corruption and to re-establish the integrity and the dignity of the law.

Mr. Rockefeller did not write the book but he sponsored it and wrote the foreword in which he says: "I find myself in complete agreement with the recommendations contained in this report and endorse them fully and unreservedly."

The entire volume is of unusual interest and gives data on government control as practiced in the various provinces of Canada, Sweden and other countries. It advocates a similar system for the various states that is based upon the conditions existing in various sections of the nation.

Applicants for West Point and Annapolis appointments are notified that the civil service commission will hold a preliminary examination for designation for these appointments at the Federal Building in Los Angeles on January 6, 1934. In order to qualify for this examination, applicants must be bona fide residents of the Seventeenth Congressional District. Those applicants who have been identified with the schools of the Seventeenth District will have preference in the final determination. And this decision will be based strictly on merit, and not on political preference.

As stated, this examination is for the purpose of making selection of appointees. From among those making passing grades, I shall appoint principals and alternates. These will be required to qualify for entrance to the academies, either by taking the regular entrance examinations or by submitting certificates from accredited high school or college in lieu thereof. This is optional with the candidate. However, when a satisfactory certificate is submitted, a substantiating examination in mathematics and English is also required.

Notify me at once if you wish to take the examination, and also submit a brief biography of yourself; and be sure to include date of birth and where and the time resided in California and in the Seventeenth Congressional District; what schools attended, and if you have graduated from a Seventeenth District high school. Evasion of these items may eliminate applicants from final consideration even if they should stand high in the examination. A number of young men in the district have already expressed interest in these appointments, and this examination will give all who can qualify as to residence, a chance.

Haskell Tidwell and other young Democrats of Southern California at the capital look sad and woebegone. Their dejection is not so much due to the overthrow of Tammany as to the downfall of the haughty Trojan football team.

HOSPITAL NOTES

Miss Marin Anderson, 25528 Pennsylvania, Lomita, underwent an operation on November 24.

John Argoussset, who is visiting his uncle at 403 1/2 Avalon boulevard, Wilmington, entered the hospital November 23 for an operation. He is a visitor from the east.

Births
Mr. and Mrs. H. C. Curley, 815 Portola, a girl, November 24.

Mr. and Mrs. H. A. Pursche, 15317 So. Vermont, Gardena, a boy, November 24.

Mr. and Mrs. R. E. Schumert, 911 Beech, a girl, November 25.

Mr. and Mrs. William Van Vleet, 832-A Sartori, a boy, November 23.

IDAHO BATTLES INSECTS

BOISE, Ida. (U.P.)—Threats of grasshopper scourges in southern Idaho prompted state agricultural officials to organize a widespread drive against them. Poison will be set for the insects. The poison also will kill sarcophagid flies, beetles and blisters and ground beetles, which have caused farmers thousands of dollars in crop losses.
