"In the Universe, including Man, Swayed by Atomic Forces" This question is the subject of the Lesson-Sermon on Sunday in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass. The Golden Text is from Paul's first epistle to the Corinthians: "To us there is but one God, the Father, of whom are all things, and we in him."  
Among the Bible selections in the Lesson-Sermon are the verses from Genesis: "And God said, Let there be light: and there was light. And God saw the light, that it was good: and God divided the light from the darkness. And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day."  
Correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, present the statements: "God, Spirit, dwelling in infinite light and harmony from which emanates the true idea, is never reflected, except by the good." "Let there be light: is the perpetual demand of Truth and Love, changing chaos into order and discord into the music of the spheres."
