**Plow Share Blistered Farmer**

BELLAIRE, Ohio (U.P.)—Heat-both from friction against the hard-burned soil and reflected heat from the sun, a plowshare became so hot that it blistered W. L. Jones' arm when he touched it.

**To Honor Sally Rand KANSAS CITY, Mo. (U.P.)—**

Sally Rand is going to be recognized for her art at last. Fifty former classmates of the famous dancer here are planning to present her with a gold bracelet bearing her figure in platinum in appreciation of the entertainment she offered during a recent visit.

**Skunks Halted Traffic**

DEVON, Conn. (U.P.)—There's no disputing the right of way when a skunk makes up its mind to amble slowly across the road. When two of the animals decided to sit down and rest awhile in the middle of a main highway, traffic was demoralized until they continued their jaunt.

**Arizona Man Finds Torrance Cool Spot**

Fred Jacobs, of Phoenix, Arizona, is sold on Torrance as a summer resort, as compared with other California cities that he has visited. Mr. Jacobs came to California two years ago and stopped in San Diego. After two weeks he moved to Torrance to spend the rest of his vacation. Last year and this year he repeated that routine. Next year, we are reliably informed, Mr. Jacobs plans to come direct to Torrance, for he has found that this city is the most comfortable place to spend the summer.

**WHEN BOULDER DAM POWER COMES - - you'll be glad you purchased an ELECTRIC Refrigerator.**

**FACTS.. you should know**  
Regarding 1934

**Electric Refrigeration**

The following quotations from a recent duly authorized statement by the Los Angeles Bureau of Power and Light to firmly establish the outstanding advantages of ELECTRIC refrigeration are published for your guidance in future buying. The statements are based entirely on facts, as follows:

- 1. FASTER FREEZING**  
"You can be definitely sure that an electric refrigerator freezes ice cubes faster than any 'flame-type' refrigerator."
- 2. SILENT OPERATION**  
"Silence is as much a feature of 1934 electric refrigerators as beauty and fast freezing. There's no such thing as a noisy unit among modern electrics."
- 3. NO SPECIAL INSTALLATION INCONVENIENCE**  
"The electric refrigerator is as easy to place or move about as a toaster or floor lamp. No permanent, rigid pipes are necessary. When you change residence, you merely pull the plug and take your electric with you. When you settle in your new home, you merely plug it in again."
- 4. TIME TESTED**  
"Electric refrigerators passed the experimental stages years ago. You may select from a wide variety of makes guaranteed for efficiency by responsible manufacturers."
- 5. UNIVERSALLY ACCEPTED**  
"Millions and millions of homes testify to the performance and operating economies of electric refrigeration. No 'flame-type' refrigerator has ever approached the sales preference for the electric."
- 6. NO GAS FUMES**  
"Electric refrigerators operate with electricity—the safest, cleanest, most efficient fuel known to man. An electric does not employ an open flame to vitiate the air. Therefore, it is not necessary to place an electric refrigerator on the back porch where it is inconvenient and inaccessible. An electric can go into the kitchen where it belongs."
- 7. NO SOOTY KITCHEN WALLS**  
"Electricity is clean... free from carbon soot. Consequently, when you have an all-electric kitchen, which you eventually will, you automatically eliminate all unnecessary wall scrubbing, drape washing and kitchen painting."
- 8. WIDER STYLE RANGE**  
"Only with an electric refrigerator may you select the type that best pleases your eye or kitchen decorations. You have the choice of unlimited styles and proportions and are not restricted to one, single design."
- 9. WIDER PRICE RANGE**  
"Electric refrigerators are priced to fit every purse. Moreover, every electric refrigerator, because of its long standing position in the market, and great volume of sales, gives you highest value for your investment. High resale values prove this."
- 10. LOW COST OPERATION**  
"Electric refrigeration heads the list of mechanical refrigerators in economy of operation..."

"For the above reasons, and for the best interests of our consumers, we recommend ELECTRIC REFRIGERATION and suggest that you BUY NOW. You need adequate, year 'round refrigeration for family health."  
("signed) BUREAU OF POWER AND LIGHT  
"City of Los Angeles."

The Facts, stated above, intended for the special benefit of the people of Los Angeles, are equally true in Torrance and neighboring communities, especially as applied to the New 1934 Line of
