

**Apaches Use Tent Homes**  
 PORT APACHE, Ariz. (U.P.)—For the first time in history Apache Indians, last of the large tribes to be subjugated in America, have moved into tents and are using stoves in their villages. Eight hundred have abandoned their grass "wickiups" for government tent villages, paying \$45 each for the tents.

**Police Sowed Jail Bars**  
 QUINCY, Mass. (U.P.)—Quincy police were forced to saw the bars of a cell to release Ray Lastra, charged with drunkenness, after the keys to the cell had been lost.

**Mobilgas Users Purchase Tenth Part of Gasoline Sold In U. S.**

Ninety-three million miles is approximately the distance from the earth to the sun. It also happens to be less than one-thousandth part of the distance a car could have travelled, averaging 12 miles to the gallon of fuel, on the gasoline sold in the United States during the first six months of 1934.

**STORY 2**

Continued from Page 1

with the Surf and Sand Club to provide hotel accommodations for guests who wish to spend the week-end at the beach, and a reduced charge for lockers for those who will come early on Saturday for beach amusements prior to the meeting.

The Torrance club members have provided unique souvenirs for the district guests, the Hawthorne club is responsible for the printed programs, which with the decorations will be in an Indian motif, and both clubs will share in extending hospitality to the 300 visitors who are expected.

Miss Beatrice Hughes, president of the Torrance club, extends a cordial invitation to the women of this city and especially to those engaged in business or professions who are not members of the club to attend the dinner and evening program. Torrance club members and all others who wish to attend are requested to note that reservations must be made not later than Friday, September 21, with Mrs. Lalla P. Bowen, telephone 658-W, otherwise accommodations can not be provided for them. All club members are expected to attend, and this session will take the place of the club's regular dinner meeting for September.

This startling fact was revealed here yesterday by L. T. Barnes, district manager for General Petroleum Corporation, marketers of Mobiloil and Mobilgas. During the first half of the current year, he said, 194,179,000 barrels of gasoline, each containing 42 gallons, were consumed by the motorists of America.

"This totals 8,156,518,000 gallons," Barnes stated, "and a simple calculation discloses that this was actually enough to send a car, averaging 12 miles to the gallon, the stupendous distance of 97,866,216,000 miles, or more than 3,936,694 times around the earth at the equator.

"The astonishing thing is that of this ocean of gasoline, one gallon out of every 10 was of one brand only, Mobilgas, which means that in the six-month period, American motorists, figuring only on this 12-mile average for all types of cars, travelled 9,786,621,600 miles on this popular brand alone, surely a striking testimonial to the quality and popularity of a nationally-known product. An appreciation of what this fabulous total of miles means can be gained from the fact that it would take a car, travelling continuously at a speed of 100 miles an hour, 111,720 years to go the distance."

Mr. Barnes added that this record was made the more phenomenal by the fact that Mobilgas is available at present in but 48 of the 48 states, whereas the six months gallonage total was calculated on the basis of the entire country.

"Naturally, when Mobilgas distribution has been organized in the other ten states, an ever higher percentage of users of this world-famous fuel may be expected," he concluded.

**JAPANESE PLEADS GUILTY**  
 Y. Iwassa, Japanese gardener, pleaded guilty in the Lomita township justice court Wednesday to a charge of selling or offering for sale vegetables carrying an amount of poison spray in excess of the quantity authorized by law. He was fined \$50 or 25 days in the county jail, and paid the fine.

**Keeping Up With Torrance High**

By RUTH GRANGER

On September 11 Torrance high school started with an aud call held on the bleachers, and after its adjournment the students were assigned to their respective classes for a period of program adjusting. During the latter part of the day, programs were tried out, and at 2:30 school was dismissed. Much to the dismay of the students, tents did not impede assignment of lessons; books were issued the following day, and work began.

This year Torrance high has three new teachers: Mrs. Allen, Miss Boecker, formerly a teacher of art in Torrance evening school, and Mr. Barrows, who took the place of Mr. Wright, who transferred to Van Ness high school in order that he might be near his home.

On August 10 word was received that Alice Burger, one of the Ephemerals of the class of '34, was to be awarded a tuition scholarship for an academic year at U. S. C. She was granted this scholarship in recognition of her qualities as a student and leader and her fine high school record.

The senior P's held their first class meeting last Friday. Class officers were elected as follows: President, Olive Belle Huber; vice president, Ruth Granger; secretary, Jayne Traller; treasurer, Bob Wertz; reporter, Roger McGinnis. Following the election, senior sweaters were discussed. A committee was appointed but nothing definite was decided upon.

Students and friends of Mr. Tice, teacher of woodshop at the high school, were sorry to learn that a sudden attack of appendicitis had made an operation necessary, and they all wish him a speedy recovery.

The high school buildings are at present in a very dilapidated condition. This condition is the result of an earthquake which occurred in 1907. The Torrance school buildings were damaged by earthquake shocks. The school buildings are being taken that no student will be hurt during the process of repairing the school. It is hoped that the buildings will be ready for use by the early part of January.

The following senior-A officers have been elected: President, Lester Bottoms; vice president, Jeanette Mickelson; secretary, Myrtle Gregg; treasurer, Mary Peckham; reporters, Birdie Hale and Eugene Stegelmeier.

**Owners of Acreage In Old Land Grant Territory Secure**

Owners of acreage in Mexican and Spanish land grants "may feel secure in their rightful possession of the land," in the words of U. S. District Attorney Pierson Hall, as the result of a decision of the United States district court of appeals. The decision upheld a ruling of Federal Judge George Cosgrave in an action brought by Lulu C. Hogan, executrix for the estate of Mrs. Emifens Kibbe, against the government and a title company.

Validity of the Mexican land grant in Ex-Mission de San Fernando was attacked in the suit, as well as the government patent confirming it. District Attorney Hall and attorneys for the title company moved for dismissal of the suit, and the motions were granted by Judge Cosgrave.

A number of suits have been brought in federal court attacking the land grants in the Palos Verdes Hills as well as in the San Fernando valley.

**MEAT**  
 IT'S REALLY A TREAT— to be able to go into a Meat Market and pick out meat for your evening meal—or any meal and not have to worry about picking a particular slice or piece that looks fresh and tender. At Grubb's "picking" is not necessary. Regardless of what Meat you may choose it's FRESH—it has to be—because Grubb's handle nothing but Fresh Meats. And yet you pay MEAT—at Grubb's than you would pay for fresh, tender meat ANYWHERE. To be SAFE

**Rehabilitation The Objective In Self-Help Cooperative Units**

Rehabilitation is the eventual objective of self-help cooperative units, and in the movement may lie a permanent solution to the problem of how to support workers displaced by industry and commerce. This is the view held by Winslow Carlton, director of cooperatives under SERA.

**FERN AVENUE SCHOOL**

The organization of our school is well under way with an enrollment of 286.

We are looking forward to a good year under the leadership of our new principal, Mrs. Oda Vaas. Watch for our new organization plans which will be out in a few weeks.

Mrs. Arzill is our P. T. A. president. Already the programs are planned and you will want to be here and enjoy each one. Plan to become a member and do your part for your school.

The first P. T. A. meeting for this year will be next week, Tuesday, September 25, at 2:00 p. m. Plan to be there and enjoy the fine program.

ture and repair, shoe repairing, lumbering and wood cutting, turn-tube manufacturing and trucking, according to SERA headquarters. Surplus products of co-operatives do not reach the open market, despite the need for sufficient cash to replace used materials. This cash is frequently obtained, through sale of surplus goods to members or to established relief agencies.
