Electric Ranges, Water Heaters, May Be Bought Thru Housing Act

With election out of the way this week, Southern California business is set to make an intensive recovery drive under the stimulating influence of the National Housing Act. Major features of the nation-wide program are now under way or ready for launching in virtually every Southern California community and the work of modernization and new building to be created through the national agency is expected during the ten months of the campaign to put thousands of unemployed building trade workers back on private payrolls and to start construction activity totaling millions of dollars.

One of the outstanding factors of the modernization program, according to C. C. Bartlett, Southern California Edison Company manager in this territory, is that the recently revised governmental regulations make possible the wide use of electrical appliances in home and farm modernization plans.

"Late rulings of the Federal Housing Administration set aside the original restrictions that electric ranges, refrigerators and water heaters have to be 'built in' and now the attaching of these service units in conduit is regarded as sufficient," Mr. Bartlett said.

Applications

"This means that the extremely low financing costs under the housing act are available to those who wish to bring their kitchens up to date by the installation of electrical equipment. The Edison Company organization, through its local offices, has arranged to aid anyone desiring this type of financing in preparation of applications and in full planning for the installation of electrical equipment. Electrical modernization programs, which initially starting with the kitchen by the use of the electric range, water heater and refrigerator, are not, of course, limited to the kitchen but may be applied to other parts of the home as well. Many home modernization programs may well include re-wiring to provide extra convenience outlets in all rooms and new and improved lighting for both the house and yard.

Farmers Benefit

"Not only city home dwellers but farmers, both large and small scale, can share in the advantages obtainable under terms of the housing act. Numerous modern electrical aids to agriculture can now be purchased and installed by means of the loans offered by private banking houses and insured by the government. Included in the list of equipment available through the act are irrigation and domestic water systems, brooders, incubators, water heaters, feed grinders, fruit driers, milking machines, separators, sterilizers, milk coolers, dairy refrigerators, meat and egg refrigerators, ventilators and other necessary appliances.

"From $100 to $2000 is available to each property owner and the rates of interest are the lowest ever offered for this type of financing. Low prices of equipment and building materials at the present time would be sufficient reason to cause owners whose property needs repairs or alterations to act at once, even if the broader civic aspect of the situation did not dictate such a course in the interests of returning prosperity through re-employment of workers now on relief roles and the reviving of the long dormant construction industries."

Loud Speaker Aided Campaign

JEFFERSON CITY, Mo. (U.P.)—Democratic campaign orators found themselves faced with a hard task teaching voters living back in the Ozark hills where there are no automobile roads. They solved the problem by setting up a loud-speaker device that has a carrying range of five miles.

Keeping Up With Torrance High

By RUTH GRANGER

The Philatelic Club, a new organization on the high school campus, held its first meeting recently. Election of officers was held and those elected are: President, Philip Jensen; vice president, Alfred Hunt; secretary, Ruth Specht; treasurer, George Muira; sergeant-at-arms, Delaine Crook; reporter, Walter Bunje.

The Torrance Forensic Forum held its first meeting, October 29. A very good program followed the business meeting, the most interesting item being a straw vote for governor. The Yugo-Slavian situation was discussed and a few musical numbers were presented. After the program refreshments were served. Mrs. Young is the sponsor of the Forum, and Mrs. Allen, a new teacher, is the co-sponsor.

Last week students and teachers were asked to submit to the office the names of pupils worthy of serving on the Student Board of Control. Following the rather long list of names, certain teachers and student officers were chosen to review the list and make further recommendations. The sum total of the recommendations caused the principal to appoint George Muira, Cletus McLean, Takashi Kiyomura and Lauretta Lancaster to four of the five vacancies. The fifth vacancy will not be filled until a later date, after further observation of the work and respect of certain eligible junior students. These appointments are for the balance of the life of the students in Torrance high school and carry with them a trust and responsibility equal to no other office, and the appointees are to be congratulated.

In the fifth period gym class a very exciting contest is being staged. Four teams were chosen and the winning team will receive 25 G. A. A. points. At present Myrtle Gregg's team is in the lead. Mildred McMullen's team follows with just one more game to win in order to tie. The sports played are "speedball and volley ball. The rating of each team is as follows:

	W.	L.	T.
Myrtle Gregg's	6	1	1
Mildred McMullen's	5	2	1
Pat Carlin's	2	5	1
Mickey Hunter's	1	6	1

The Scholarship Society held the first meeting of the semester Tuesday. Club officers were elected and are as follows: President, Julian Isen; vice president, Margaret Condon; secretary, Laura Mae Hyde; treasurer, Ruth Granger; reporter, Adeline Morisset. A letter from Venice high school inviting four delegates to attend a quarterly banquet was read. Those who are to represent Torrance are Julian Isen, Eugene Stegelmeyer, Laura Mae Hyde and Ruth Granger.

Monday, November 5, the World Friendship Club met. After the usual business the meeting was adjourned. Miss Crossler, from Los Angeles, gave a most interesting talk about her service in the World war and the sentiment of world peace that was aroused. After the program refreshments were served; then the students danced.

Delegates Named to Convention of Future Farmers

A two-day program packed with fast-moving events is in prospect for Torrance boys, selected as delegates to the ninth annual state convention of the Future Farmers of America, which will be held in Los Angeles in conjunction with the Great Western Livestock Show, according to announcement by R. E. Merrill, instructor in agriculture at the Torrance high school.

Delegates from Torrance are Albert Winkler, Manuel Howard, Art Hedrick, Takashi Kiomura, Takayuke Tasouye, William Schipper, Clarence Bay, Ray Spetheger, Wesley Brady, Joe Bay, Joe Kalina, Carl Furman and William Dennis.

A tour of inspection of the Cudahy Packing plant and a trip to the motion picture studios where a film will be seen in the making will be part of the entertainment. Practical demonstrations in judging live stock will be conducted for the delegates on the morning of the second day at the stock show. In the afternoon the boys have their choice of attending a rodeo or the U. S. C.-Oregon football game. A banquet in the evening will conclude the session.

STORY 1

which the city has under option from the C. C. M. O. for $13,500. It is also expected that sufficient money will be available for cleaning out the water mains, removing dead ends, and repairing leaks, which are said to be responsible for considerable loss of water.

Ask $170,000 Loan

An application for a loan and grant of $170,000 from the Public Works Administration was approved by the Torrance city council Monday afternoon, but it is not expected that this money, if approved by Washington officials, will be available until after January when the new Congress is expected to appropriate additional funds for the PWA.

Members of the council expressed the opinion that it might not be necessary to use the entire $170,000 requested, and that if it were found that desired improvements could be made for less than this amount that only as much money as required would be borrowed from federal sources. Among the improvements contemplated through the federal loan and grant are drilling of wells, construction of a reservoir and pressure tank, pumps and enlarging the distribution lines where required to give adequate pressure.

Pending the granting of the federal loan, the city plans to continue the present practice of buying water from the Dominguez Water Company.

Chamber Urges Appropriation For Xmas Trees

At its regular monthly meeting held last Monday, November 5, the board of directors of the Torrance Chamber of Commerce approved nine applications for membership, they being: W. W. Clark and Margaret L. Clark, owners and operators of the Clark Stationery Store, 1405 Sartori avenue; Ray Begue and W. E. Shawger, of the D. & M. Machine Works; P. Harwood Clark and P. H. Clark of the Torrance Brass Foundry, 1825 213th street; Burt Ordway, Stores Department, Pacific Electric Shops; H. B. Amos, proprietor of Torrance News Agency, 1322 Sartori avenue; George N. Mershon, of Mershon's Music Shop, 1627 Cabrillo avenue.

Requests from the Torrance fire department and from Walteria that funds be appropriated again this season to cover cost of Christmas tree programs were ordered transmitted to the Torrance city council, with the recommendation that $150.00 be alloted by the city council for the Torrance program, and $25.00 for the Walteria program, this action being taken in view of the widespread appreciation of Torrance citizens during the past several years when similar activities were conducted.

Boy Scouts Will Dedicate Hall At Wilmington Sat.

Boy Scouts and Scout officials will assemble at Wilmington next Saturday, November 10, to assist in dedicating a new Scout hall erected at Cary and "I" streets which replaces one destroyed by fire some time ago. The new hall, 26x60 feet, was built by the aid of donations from public-spirited citizens of Wilmington and contains meeting hall, fireplace, lockers, kitchen and toilet. Recreation grounds adjoin the building site. A fine program will be offered Saturday with Edward B. DeGroot, member of the Los Angeles Boy Scout council, as the speaker. A series of field events prior to the ceremony will include Boy Scout contests. Any Scout who qualifies in four events will receive an "E" efficiency award and an award will be made to the troop having the largest number of members to qualify.

Troops from Torrance, Lomita, Harbor City, Wilmington, San Pedro, Gardena and Keystone will be represented, together with Scouts leaders from the harbor district.

HOSPITAL NOTES

Mrs. Anne Bailey, 730 Portola, underwent an operation on her eye, November 7.

Mrs. Suzanne Bloch, 813 Avenue A, Redondo Beach, was operated upon November 5.

James A. Cook, 2218 Sonoma, injured some time ago, entered the hospital to have skin grafted on his hand, November 7.

M. J. Lundgren, 1359 East 61st street, Los Angeles, an employe at the National Supply Company, suffered an arm injury November 6 in a fall, and was taken to the hospital for X-ray and treatment for bruises. He was not seriously hurt.

W. G. Morse, 214 South Pacific, Redondo Beach, underwent an appendix operation, October 21.

Births

To Mr. and Mrs. Oscar H. Pow, Mayfair Apartments, a boy, November 7.

Mr. and Mrs. Alfred M. Sheather, 827 West 95th street, Los Angeles, a boy, November 1.

Mr. and Mrs. Raymond Wells, 21 Via di Roma, Long Beach, a boy, November 5.

NOTICE OF INTENTION

Max E. Schumacher, 22, of 522 North Broadway, Redondo Beach, and Dolores A. King, 21, of 1224 Sartori avenue, Torrance.

New Management Takes Over G. P. Service Station

George Anderson and Leonard Jacobson this week took over the active management of the General Petroleum Service Station, corner El Prado and Carson streets. Both young men have been residents of Torrance for a number of years and are experienced in automotive servicing. In addition to handling a complete stock of Mobilgas, Mobiloil and greases, the station is equipped to do certified Mobilubricating, washing and polishing of all types of automobiles. Telephone number of the station is Torrance 789 and cars will be called for and delivered.

Lived Through 26 Presidents

GREENFIELD, Mass. (U.P.)—This city boasts two women citizens who have lived to see 26 Presidents take office. They are Mrs. Emily T. Morton, Greenfield's oldest woman, who is 102, and Mrs. Elizabeth Adams Morgan, 101.

"Tall Corn" Title Endangered

HILMAR, Cal. (U.P.)—Iowa's claim as the leading state for "tall corn," was in jeopardy today as H. W. Sederquist exhibited five 16-foot stalks weighing 70 pounds. The corn was planted in June as a second crop.
