

New Buildings Planned For School District

Torrance and Lomita Are
Included in List of New
Projects

Plans for a new boys' physical education building at Torrance high school, and a new building for classes at Narbonne, are included in a building program announced by the Los Angeles city schools board of education this week.

The physical education building here will be erected at a cost of \$21,000, the Narbonne building improvement to cost \$110,000. In addition to these, 18 other projects are listed as new buildings in the district, and 20 school structures will be rehabilitated to conform to state building regulations.

The Narbonne unit was included in plans as long as two years ago but was abandoned at that time for lack of funds. It is badly needed, as the enrollment there this year exceeds 100, and conditions are badly overcrowded.

Total cost of the 38 projects will run to \$2,283,500.

Mrs. Tillotson Passes Away Monday

Mrs. Ida Letitia Tillotson, 71, passed away at the home of her daughter, Mrs. Carol Young, 5516 Fejoia street, Lomita, Monday, October 14. Funeral services were held Wednesday afternoon, at 2 o'clock from Stone & Myers chapel, with the Rev. Thomas Caldwell delivering the memorial address. Services were followed by cremation at Pacific Crest.

Mrs. Tillotson leaves a son, Frank Tillotson, of Buckley, Washington; a daughter, Mrs. Young; three grand daughters, one grandson, and one great grandson; three sisters, Mrs. Maud Lemon of Long Beach, Mrs. Cora McBride of Chicago and Mrs. Lettie Baxter of Oakland.

MOVED TO GARDENA

Mr. and Mrs. Sig Shoberg, 1507 Acacia, have moved to Gardena and are residing at 419 West 165th street.

OIL FIELD production here IS STEADY

While Torrance field failed to show a gain in crude oil production this past week, other fields in the Los Angeles basin increased their output by 6,120 barrels, with the state as a whole gaining only 1,720 barrels daily average over the preceding week. Torrance produced a daily average of 6,950 as against 7,000 barrels for the previous period.

Inglewood accounted for the bulk of the gain in this basin, averaging 17,030 barrels daily as against 13,500 for the prior week. Long Beach gained 1,150 barrels daily to a figure of 78,150.

Kettleman Hills continues to be the banner producing field of the state, averaging 94,200, a gain of 200 barrels over the week before. Total daily average production for the entire state the past week was reported at 644,270 barrels.

Palos Verdes Post Membership Drive

Palos Verdes Post No. 77, Canadian Legion, British Empire Service League, which meets the first and third Monday evening at the V. F. W. hall in Lomita, is planning a drive for members which will culminate with a big open house celebration on November 30, at the American Legion hall, San Pedro. At this time the Post will receive its charter, initiate members, install officers, and dedicate its colours, the business meeting to be followed by a grand ball.

The Post has been formed for four months, and has enrolled 30 new members during this short time. All men who served with the armed forces or its auxiliary of the British Empire during the World War are eligible to join. The Post hopes to reach a total membership of 100 by the time the open house celebration is held in November.

Undersea Springs Pollute Beaches

Pollution of the west beaches, thought to be due to the discharge of bilge from tankers, has been found to be caused by the presence of undersea petroleum springs, the third of

Roosevelt Club Plans Rally For An Early Date

Public Will Be Invited to
Attend Big Gathering
In November

At a meeting of the On With Roosevelt club, held Monday evening at 1324 El Prado, plans were tentatively arranged for a big rally to be held probably on November 6. The date may be changed if Congressman Charles J. Colden, who has been invited, finds that he can not attend on that evening, but the meeting will be held at about that date.

The On With Roosevelt club is growing in membership and plans to stage several interesting meetings in the future, with the purpose of arousing public interest in the coming presidential campaign.

Other On With Roosevelt clubs have been organized in the county, but to the Torrance group belongs the honor of forming the first of its kind in the United States.

Hospital Notes

Wayne Denney, 2164 Torrance boulevard, was operated for the removal of appendix October 12, and has been removed to his home where he is getting along nicely.

Mrs. Frances Hardesty, 208 So. Lucia, entered October 15 for medical treatment.

Augusto Rossi, Keystone, is recovering from an appendix operation performed October 10.

John W. Schaller, 223 East 4th street, Ontario, underwent a hernia operation October 11.

Mrs. Nannie Smith, 1838 W. 169th street, Moneta, entered October 15 for medical treatment. She is the mother of S. E. Smith, 1614 Amapola avenue, which has recently been discovered off Manhattan Beach. The spring emitted blotches of oil on the sea a mile long and half a mile wide. It seems to be more active than the other springs, one of which is located off Hermosa Beach and the other off the Palos Verdes shoreline.

Notice of Intention

Notices of intention to marry were filed with the county clerk this week on behalf of the following residents:

Earl Valentine Tavan, Jr., 23, of 1747 Andreo avenue, Torrance, and Betty Jean McIntyre, 21, of the CCMO Lease, Torrance.

Francis McFarland, 23, of 921 Sartori street, Torrance, and Pearl Jane McMillan, 18, of 110 North Benita avenue, Redondo Beach.

Chester A. Harner, Jr., 21, of the U. S. S. New Mexico, and Florence Jessie Rider, 22, of route 1, Lomita.

Mail Service Bids Withdrawn

In response to an order from the department at Washington, Postmaster C. Earl Conner has withdrawn the notice calling for bids on mail messenger service which was posted a few days ago. It has been found unnecessary to advertise for bids on this class of service where the party who is employed on the job does no other trucking business. The service included merely the handling of mail to and from the postoffice and P. E. depot.

STORY 2

Continued from Page 1

will was the holder of a Smith-Hughes certificate, which entitled the school to receive state aid for its agricultural project. A number of years ago, a bill was passed by Congress, called the Smith-Hughes bill, by which the federal government matched funds with states for the purpose of fostering industrial, mechanical, or agricultural instruction in the schools. Recently the federal government has withdrawn its support, but the work is carried on by the states, in California and elsewhere. These projects required the employment of an instructor who had

had practical experience in the lines along which the schools proposed to carry on. Mr. Merrill was the holder of one of these valued certificates, and in order to continue to receive state aid here, an instructor must be secured who will also have that added asset.

The project was first launched in Torrance by Thomas C. Elson when he was principal of the high school years ago, and with a few lapses, has been continued ever since.

Besides carrying on his work at the Torrance high school, which was of such an exceptional character that students from other communities came to Torrance to enroll in his

classes, Merrill conducted classes in night school at Redondo Beach. He resided at 807 El Redondo, in that city. He leaves a widow and eight children.

Arrangements for funeral services were delayed pending the arrival of his mother who resides in Houston, Texas, but were expected to be held this afternoon at Redondo Beach.

Change Address

Mr. and Mrs. Morris Koch of the Star Furniture Company have moved from 1630 Arlington avenue to 1515 Amapola.
