New Goodyear Dealer

Opens at 1618 Cravens As the Torrance Tire & Retreading Co.

After a thorough and exhaustive study of business conditions and future possibilities of Southern California cities, J. B. Parazette and B. W. Buckland, old time tire men, chose Torrance as the most active of all communities investigated, and this week-end will formally open their new tire, battery, radio and tire retreading plant at 1618 Cravens.

Both Parazette and Buckland are old hands in the tire business, the former having been with the Goodyear factory for 10 years, while Buckland has 12 years with the same firm to his credit. The new establishment will be known as the Torrance Tire and Retreading Co., and is occupying the same location formerly held by the Torrance Retreading and Tire Service.

Parazette for the past two years was sales manager of the Southern California district for the Super Mold Corporation, world's largest manufacturer of tire retreading equipment. He quit this position to join Buckland in Torrance and because of his training and specialization in retreading is well qualified to operate that end of the business. Parazette is married, has one child, and intends to move to Torrance as soon as suitable quarters can be found.

Old Goodyear Man
Buckland has had experience in almost every division of the large Los Angeles Goodyear plant. He knows tires thoroughly, and only six months ago left the factory to establish a tire shop adjacent to the Goodyear plant. This shop is now operating and will continue to do so under another manager. Buckland also is married and with his two children and Mrs. Buckland plans to reside in this city when accommodations can be had.

Have Varied Lines
The new firm will sell Goodyear tires and tubes, McClaren batteries, Packard-Bell radios for automobiles and homes, Refino-Lube top cylinder lubrications, and auto accessories. However, one of their largest divisions is to be tire retreading, and under the expert manipulation of chief vulcanizer Bill

Japanese Home Is Looted Monday

Some time between 1 and 5 o'clock Monday afternoon, unknown parties entered the home of Manicki Haratani, located on Cherry street near Redondo Beach boulevard in North Torrance, and stole clothing valued at about \$200. Entrance was made by kicking in the kitchen door. Only one bedroom had been visited apparently, as a sum of money amounting to over \$100 which was hidden in a paper box in the adjoining room was not taken.

In addition to the wearing apparel the thieves took the birth certificates of four Haratani children and the passports of Haratani and his wife. Suspicion is directed towards a party of Mexicans who had been seen cruising about the district during the afternoon.

Fern Avenue SCHOOL

Mrs. J. M. Connell, of Torrance, is rendering valuable help as the new assistant clerk. Miss Genevieve Crowley returns as pianist to assist with folk dancing and rhythm classes. The boys and girls of Fern avenue enjoyed a visit Wednesday from Rolling Cloud and High Sky, Indians of the Mohawk and the Shawnee tribes who appeared in full costume and demonstrated tribal dances and songs in two assemblies Wednesday. They visited the classrooms and gave the children an opportunity to ask many questions.

Williams, the plant is almost ready to go. "We like it in Torrance already," said Buckland today, speaking for himself and his partner. "We were greatly surprised at the fine residential area of Torrance. For several days we just rode around the town and investigated conditions here. Torrance won over Bakersfield, Ventura, and Alhambra, the other cities we had considered."

STORY 1

(Continued from Page 1-A)

entered by Joan Ramskill, Pauline Delsigne, Robert McAllister, Frank Gordon, Joan James, Augustine Bray, Eugene Powell, Billie Lafferty, Martha Osewa, Anna May Brown, Dorothy Terry, Charles Mumford, Frances Krugo, Marlin Smith, Coral Lindeman, Sammy Avolan, Edward Dow, James Jones, Robert Sterling, Dolly Livermore, Raymond Edens, Bill Coppenger, Phil Thomas, Connie Johnson, Robert Oleson, Bernice Russell and Lorraine Davis as most representative.

A hillbilly orchestra entertained visitors to the exhibit during the afternoons of the two-day exhibit.

At Walteria, which is a smaller center with fewer children and adults attending, the display was surprisingly large, with 77 articles entered, the work including fibre flowers, paper flowers, painting, sewing, and novelties. This exhibit was held on Saturday afternoon, with entertainment by the Edgar E. Hastings Internationals, a well known hillbilly orchestra, Plato the magician, and during the afternoon six young girls served punch and wafers. Judges were Mrs. Hawker, of Redondo Beach; Mrs. Marie Lambert of Gardena, and Mrs. Cora Bohrer of Torrance. Thirty-three articles were selected for exhibition at Inglewood. They were the work of Marjorie Hamilton, Florence Conze, Nina McMurray, Dora Huffine, Shirley Dean Crowthers, Dorothy Crowe, Margie Crowe, Alta Mae Johnson, Joyce McKinley, Winona Minor, Thomas Daniel, Buddy McMurray, Kenneth Talley and Edgar Polston of the junior division and of Mrs. Deborah Campbell and Mrs. Elsie Minor, adult division.

NORGE

SETS THE PACE

with Rollator Refrigeration

The Only Refrigerator with the ROLLATOR

SEE FOR DETAILS ABOUT THE WORK OF THE ROLLATOR COMPRESSOR UNIT

THE ROLLATOR COMPRESSOR... smooth, easy, rolling power instead of the hurried back-and-forth action of the ordinary refrigerating mechanism. Result—more cold for the current used and an almost everlasting mechanism.

Judge any refrigerator by the mechanism that makes the cold. Norge, and only Norge, has the simple surplus-powered almost everlasting Rollator. So powerful is the Rollator that it has to run but a small part of the time to protect your food, make plenty of ice. And because it runs so little, it shows an amazing economy in converting limited current into unlimited cold.

Improved Press Action Latch * Improved Automatic Flood Light * Combination Bottle and Dairy Rack * Sliding Utility Basket * Hydrovoir * Closely Spaced Shelf Bars * Adjustable Shelf * Many other exclusive Norge features.
