**CHRISTIAN SCIENCE CHURCHES**  
 The question "Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. The Golden Text is from James: "Resist the devil, and he will flee from you. Draw nigh to God, and he will draw nigh to you."  
 Among the Bible selections in the Lesson-Sermon are these words of Paul to the Corinthians: "We are troubled on every side, but not distressed; we are perplexed, yet not in despair; for our light affliction, which is but for a moment, worketh for us a far more exceeding and eternal weight of glory; while we look not at the things which are seen, but at the things which are not seen; for the things which are seen are temporal, but the things which are not seen are eternal."  
 The Lesson-Sermon includes also these passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We must look only to realism instead of accepting only the outward sense of things." "Realize that the evidence of the senses is not to be accepted in the case of sickness, any more than it is in the case of sin."

## Elder Exchanges Pulpit With L. A. Church Pastor

**Savory Sausage Great For Chill Fall Day Meals**  
 On chill fall days, sausage in one or more of its honey combinations seems just the thing. For breakfast, there is sausage and buckwheat cakes; for dinner, sausage and boiled potatoes with rich sausage gravy and sauerkraut; and for supper, sausage with waffles and genuine maple syrup. Perhaps it is the spicy flavor of the sausage which makes these combinations so satisfying this time of year.  
 Sausage combines well with many foods, so that its use is by no means limited to the favorites mentioned here. Inez S. Willson, home economist, suggests sausage and noodles in casserole as a coming favorite for the hearty dinner.  
 Sausage and Noodles in Casserole  
 2 pounds bulk sausage  
 1 package medium egg noodles or  
 2 cups homemade noodles  
 1 small onion, finely diced  
 1 cup tomatoes  
 Salt  
 Cook noodles in boiling salted water until tender. Place in a greased casserole and mix with finely diced onion. Place tomatoes over all, cover and cook in a moderate oven (350° F.) for 20 minutes.

**Relief Corps Luncheon Friday**  
 Members of Stephen A. Phillips Relief Corps will hold a potluck luncheon and afternoon card party in their hall, 1951 Carson street, Friday, Luncheon at 12 noon with card play at 1 p. m. Friends are invited to attend with members.

## ELECTRIC EXHIBIT "FIND"

One of the most attractive spots in the "Electrical Age Exposition," which opens Saturday, October 10 in Pan-Pacific auditorium, Los Angeles, will be the electrical kitchen, filled with gadgets to make housework easy. That was what Ann Morris, left, and Lois Harrison discovered when pre-viewing the event. Scientific wonders, entertainment, culinary schools and rainbow lighting effects are other attractions.

## Public Speaking Class Offered

Local residents who are interested in public speaking are invited to enroll in a class in the art of toastmastering and after-dinner speaking, to be offered Tuesday evenings from 8:30 to 10 o'clock at Los Angeles adult evening college.

Void B. Null is instructor of the class. He also announces that a correlative class in the principles of economics, as applied to present-day topics, is being offered Thursday evenings from 7 to 8:30 o'clock. Both classes are part of the emergency educational program under the direction of the Los Angeles city board of education.  
 Null also is to instruct two classes at Fairfax adult evening school, one in economics and one in economic current problems on Monday and Wednesday evenings from 7 to 10 o'clock. All students over 17 who are not attending day school are invited to attend.

## Electrical Age Exposition Opens Saturday, Oct. 10, In Los Angeles

C.N.P.A. Inc. Service  
 Wonders of electrical science will take on new practical aspects when the "Electrical Age Exposition" begins its run in Pan-Pacific auditorium, Los Angeles, on Saturday, October 10, officials of the event declared today.  
 Running in connection with the Boulder Dam inaugural celebration the exposition was reported virtually in readiness for its opening.  
 Preparations for spectacular demonstrations, entertainment features, useful applications in the home and gadgets calculated to portray a new electrical age were seen on every side.  
 Workers, technicians and scientists tolled all this week, making ready for the event, which will portray new applications of electricity for domestic, commercial and industrial purposes.  
 One of the features in the entertainment division, will be a revue of attractive girls, garbed as refrigerators, radio sets, fans and clocks, all portraying in their dance routines the mechanical devices to which electricity has been harnessed.  
 Elaborate preparations for cooking schools and electrical kitchens have been under way for days, officials said. Some of the leading household and culinary experts of the era will have charge of these useful divisions of the exposition.  
 Riot of Color  
 The entire exposition is set in a riotously colorful environment. Designers, decorators and electrical engineers were surveying their work with pleasure.  
 Under direction of the Electrical Development League, consisting of leading electrical houses, laboratories and power distributing bureaus, the show will reveal hundreds of new uses
