Rain or Shine, Ford Brakes Hold

Rain or shine, the new braking system of the 1937 Ford V-8 holds the car permanently on a 45 percent grade, as this photo shows. Brake demonstration ramps similar to the above are now in use at over 50 Ford dealerships in the Long Beach branch territory graphically showing the effectiveness and dependability of the new braking system as well as the various mechanical features of these "self-energizing" brakes. A dealer here is explaining the new cable-conduit control—steel cables conducting the braking force thru steel tubes—which, as engineers point out, affords "the safety of steel from pedal to wheel."

Week-end Storm Drenches City But Causes No Flood Damage

GIVES TIPS FOR BRIDGE LUNCHEONS

(Continued from Page 1-A)

ice on the Torrance line while workmen cleared tons of rock and clay from the rails near the Channel street-Williamson San Pedro road intersection. Traffic on Western avenue was "knocked" by the flood which swept over the road making location of the highway impossible Saturday.

The storm's total of 4.20 inches brought the seasonal rainfall mark up to 12.88 inches as compared with 5.71 at this time last year. The total for the 1936 season was 10.87 inches, with the last rain coming on Mar. 31. The deluge last week-end also set a new record for the "most rain" in a 24-hour period—the last year's greatest storm (on Feb. 1) leaving but 1.21 inches here.

Lomita Gets 4.36 Inches

The storm gave Lomita a precipitation of 4.36 inches, according to the weather data kept at Narbonne high school. This brought the season's total in that community to 18.90 as compared to 3.54 inches at this time last year.

In the Shoestring strip several homes were flooded and a number of others made inadvisable by the storm. Several streets in Harbor City were impassable for a day or so and large acreages of surrounding farm lands were inundated.

Incidents of Storm

An old safe, two feet square, was uncovered by the rain and washed out of the dirt by the run-off in a ravine south of the Hollywood Riviera clubhouse. No papers or other identifying material was found in, or near, the safe which was removed to the Redondo police headquarters, local officers learned.

If deputy sheriffs had not seen him topple into the water, a 64-year-old vagrant who said his name was Big John Riley, might have drowned early Monday morning in a snimp off Lomita boulevard. He was hauled out of the water, dead drunk, and taken to jail here to sleep it off and dry out. Monday morning, still wet and shivering badly, he was bundled off to the county jail.

Hurryling thru the rain Saturday afternoon, Mrs. W. M. Kruko, who lives with her family in one of the cabins at 1739 Western avenue, dropped a handkerchief containing \$33. Her husband notified police of the loss but the money has not been returned to the Krukos. It was lost between the postoffice and the Safeway market on Cabrillo avenue, he said.

Observance of Boy Scout Week locally this week was confined to a "board of review" at the Scout hall Monday night and the issuance of an announcement of prime importance to parents of boys under Scout age. The review will be held for boys who have passed tests during the past two months. Bernie Donahue, court of honor chairman, will be in charge of the session. Plans were made for a court of honor Feb. 25.

At a recent meeting of the district scouting committee, Leonard Babcock was appointed neighborhood commissioner and Dale Riley was named neighborhood commissioner to launch a Cub Scouting program in Torrance within a month.

Cub Scouts are boys from nine to 12 years of age and is the younger branch program of the Scout organization. All parents interested in having their youngsters enter Cub Scouting should see Riley at once at the city park playground.
