### Rolling Hills to Get P. O. Station

Plans to establish a rural postal station in Rolling Hills on Sept 1 have been completed and the unit is expected to open on that date if necessary supplies and equipment have been received by that time, according to Postmaster Birda Paddock of Lomita. The station will be served by a rural route out of the Lomita postoffice and will accommodate not only residents of Rolling Hills but a number of ranchers in the surrounding vicinity, Miss Paddock said today.

Miss Winnifred Meadow Williams has been appointed clerk of the unit which will be known as the Rolling Hills Rural Station, California. The office will be located at the gatehouse to the subdivision. Miss Paddock said it was planned to cancel the first day's receipt of air mail letters from that station with a special stamp. Cover collectors desiring to add these to their collections should leave the envelopes with the Lomita postoffice.

### Wisdom of East Is Out

And it got assurances from a

WASHINGTON, Aug. 19 (U.P.)—You can't learn to croon in 10 days, live forever, or "pack a 16-inch arm in your sleeve." The benevolent Federal Trade Commission says so.

The commission has been quietly moving in to combat improper advertising and the various forms of skill games built on P. T. Barnum's assumption that "There's a sucker born every minute." These are some of the results:

The commission has obtained an agreement from a Florida dentist to cease representing that artificial teeth purchased from him by mail order are better than any others or are the only means to obtain "your real individuality."

It received a promise from a Philadelphia firm to stop advertising its muscle builder as "the greatest exerciser made; the choice of champions and the emblem of power; it quickly stimulates muscular growth . . . by its use one can pack a 16-inch arm in his sleeve and duplicate the chain-breaking or iron-bending feats of Breitbart, Marx, Sandow, Moerk, Travis or Nordquist."

### Convention Reports Given Legionnaires

Commander L. G. Bartkuld presided over his first regular meeting since his installation Tuesday night when members of Bert S. Crossland post No. 170, American Legion, gathered to hear reports on the activities of the state convention at Stockton last week. Those reporting were Charles Smith, Pat Boyle, past commander; Dewey Goddard and James Wilkes. The post is planning an extensive schedule of activities for the coming year but no details are available at this time.

### Stalk Has 48 Lilies

ALBANY, N. Y. (U.P.)—Forty-eight tiger lilies growing on a single stalk were found near here. Horticulturists pointed out that a stalk with one or four lilies is not unusual but one with 48 blossoms is quite an oddity.

Los Angeles concern that it would no longer represent that its founder "was taught by masters of the Far East in Tibet, and is today an authoritative interpreter of the ancient wisdom" offering "a secret method of the actual technique of rejuvenation because old age is only a chemical change which the concern is able to instruct its students to overcome."

The commission is charged with guarding honesty—in its strictest sense—in all business practices. Under its regulatory powers it is thus able to crack down on what it considers false or misleading advertising.

Officials of the body recalled today that among the innumerable acts taken by it during the present year, to enforce "honest representations," were to prevent:

A New York author from selling a book designated "The Grape Cure" and describing it as a competent treatment or an effective remedy for cancer, diabetes, paralysis, pneumonia, heart trouble and other ailments.

A Chicago promoter from advertising a booklet which "will enable anyone to learn to sing or croon and to have a trained singing voice or become an accomplished singer or crooner in 10 easy lessons."

No Snore Preventer  
A Washington manufacturer from telling his public that he has a device which prevents snoring and eliminates asthma, catarrh, hay fever and insomnia.

A Worcester, Mass., oil company from guaranteeing that its fuel powers Gar Wood's and Sir Malcolm Campbell's engines and runs the Graf Zeppelin.

A Los Angeles syndicate from assuring people that its "press card" is an "open seasame" for gaining admission to places otherwise closed to public.

And finally, much to the distress of hopeful alcoholics, the commission clamped down on two concerns who tried to convince the reading public they could, for a small price, buy products which "would overcome the effects of drinking alcoholic beverages."
