Townsend Club Activities

Approximately 300 attended the 17th Congressional district Townsend club picnic and rally Sunday at the city park, here when the local club, Vernon F. Glidden, president, was host. The principal speaker was a program of talks and music was given by John F. Weir of Los Angeles. A number of the picnicers also enjoyed dancing.

SPEAKER RAAPS OTHER PENSION ORGANIZATIONS

Quoting from the address given recently, before a large audience of Townsenders assembled from all over the 17th district, in the elementary school auditorium, Attorney H. L. Sweet said in part: "Very often recently I'm approached by troubled souls who ask me, 'What effect are all these other organizations springing up; going to have on the Townsend movement—will they wreck it?'"

My reply is—in Vermont, where I lived as a boy, my dad often took me to help him in the apple orchard. He would point out a fine tree and tell me to observe what grew at its root. I could see only some slender branches, glossy-foliaged, springing up thickly. Dad would say, "Those, son, are what we call suckers, they take strength from the tree, but they will never bear fruit and never attain the size of the parent tree."

"So it is with the Townsend plan, 'rump' organizations may somewhat hinder the growth of the tree, temporarily, but they will never bear fruit—never attain the size of the parent tree. One other simile I would impress upon you—that is this potent fact: coming across your Western states this Vermont met up with your alfalfa plant for the first time. In making a study of the plant and its possibilities I found in it this wonderful provision of an all-wise Creator. Where wheat is planted we know it takes elements out of the soil, but the alfalfa plant carries in its root a series of nodules which contain life-giving elements that it gives back to the soil. Thus it is like to the Townsend Plan, which, if enacted into law, would carry life-giving principles into the soil of our democratic form of government and thereby render important those forces called Fascism, Nazi-ism and Communism."

All State Roads Built in Future to Cut Death Toll

Marking a new stride in engineers' efforts to reduce California's staggering traffic death toll, all highways constructed in the future will be built to a minimum width of 22 feet.

Earl Lee Kelly, state director of public works, has issued a blanket order making the new provision applicable to all road construction jobs.

from the tree, but they will never bear fruit and never attain the size of the parent tree."

Meat Dealer Hurt in Crash

Being side-swiped by an asstertedly intoxicated woman motorist in Hawthorne a week ago proved bad luck to Alexander Bell, who recently opened the Civic Center Market on Cravens avenue in conjunction with Dale Howe of this city. Bell was seriously injured and has been confined to his home in Inglewood ever since the accident.

His right hip was badly bruised and he also suffered a number of cuts and other bruises. It will be another week before he returns to his meat department in the Cravens food store.

Gas Tax 'Yardstick' Boon to Torrance; Aids Small Cities

(Continued from Page 1-B)

on" of \$1,980,000 was reduced by the supervisors because of increased expenses loaded on the county by new state laws to \$1,240,000.

It was on the basis of an even million dollars that the final "yardstick" divisions were calculated. Any larger sum would mean just that much more to the cities. It is Leonard's sincere belief that the 85-15 plan represents the best possible settlement of a vexing question which aroused no little controversy in the past few weeks between Los Angeles city officials and county supervisors.

Mile Revenue Compared

The \$1,240,000 is by no means normal income, Leonard points out. The normal would be about three times that sum and next year, providing the state legislature does not saddle the county with another batch of extra expenses, this should be realized for division among the 44 cities.

Torrance has 20.66 miles of primary roads within its boundaries. Its percentage of the total county population is 38.49. If the apportionment of \$1,000,000 state funds were made on a strictly population basis, this city would get but \$3,849. Fifteen percent income on the mileage basis would raise \$3,153 for Torrance and \$5 per cent on the population basis means \$3,272 additional or a total of \$6,425 from the 85-15 combination. But the state funds are now expected to total \$1,240,000 and thus the city's allocation will be increased to \$7,967.

Last year's revenue to Torrance of \$4,050 for the 20 miles of primary roads it had then figures out about \$200 per mile for maintenance and improvement. At the same time Los Angeles received \$3,200,000 for 470 miles of roads or \$4,894 per mile—the inconsistency of the mileage revenue is obvious. It is this variance that the 85-15 plan will correct. This year, on a basis of an even \$1,000,000 for division, Los Angeles will receive \$629,918 or \$1,340 per mile, while Torrance's mile income is \$311.

Handy Sander Renews Floors

Sol Koch of the Torrance Paint Store, Sartori and Post avenues, announces the acquisition of a "Handy Sander" Floor Sander, to accommodate customers who wish to keep their floors looking new and beautiful.

"Handy Sander" is a portable type of floor sander, absolutely dustless, quiet and very easy to operate—so easy in fact, that anyone without previous experience, can do a smooth clean job of sanding.

The renewing of wood floors has always been considered an expensive proposition, but several years ago "Handy Sander" was perfected and did this work so inexpensively that the cost of refinishing old floors is now within reach of everyone. Even the removal of old varnish, once a very expensive part of refinishing an old floor, is now only a small item.

Pension Group Bids Public to Session

The All-American 93 Forum No. 1 will meet next Monday night, Sept. 13, at the K. of C. hall, 113 West Manchester avenue when old age pensions will be discussed and special entertainment will be staged. Afterwards there will be card games and prizes. All interested are invited to attend.

A LESSON IN THRIFT

FOR SMART HOUSEWIVES WHO HAVE PASSED THE SCHOOL AGE BUT WHO EASILY UNDERSTAND THE MEANING OF ECONOMY WHEN IT'S EXPLAINED TO THEM.

LESSON No. 1 . . .

BUY AN ELECTROLUX

Lesson No. 1 already has been learned by thousands of housewives. It is this: for ECONOMY, BEAUTY, PERMANENT SILENCE and LIFETIME SERVICE-ABILITY there's no better buy in the field of refrigerators than ELECTROLUX. It gives you savings in operation and food stuffs you never dreamed of enhances the beauty of your kitchen as well.

LESSON No. 2 . . .

BUY A GAFFERS & SATTLER

A Gaffers & Sattler Clock Control Gas Range is the finest lesson in smart-buying. It cooks economically and its beauty and convenient features make cooking a pleasure.

But, of course, the shrewdest plan of all is the purchase of BOTH an ELECTROLUX and a GAFFERS & SATTLER GAS RANGE AT THE SAME TIME!! Down payment is small and as little as . . .

Soap Box Derby Plans Advance for Local Boys

(Continued from Page 1-B)

boys making their "cars." This lumber may be obtained free of charge by any boy who applies at the Torrance Lumber company and tells Jones or Silligo he wants to build a Derby racer.

Offers Wheel Set

And Harvel Gutfenfelder of Harvey's Tire and Battery shop at the corner of Cravens and Marcella avenues made this important announcement: He will offer a complete set of Goodrich tires, wheels, axles and bearings—the same as used by the international Derby champion at Akron, Ohio, last month—at the "Dividend Dough" Auction on Saturday night, Sept. 18. Any boy who accumulates "Dividend Dough" in the big sales feature being conducted by scores of business houses and merchants here may "bid" for this city and receive it free of charge.

"I have also a limited supply of these Goodrich tires, wheels, axles and bearings especially made for Derby cars which I am offering for sale at their actual cost price—\$7.16 which includes the sales tax," Harvel said. "Every one of the 462 entrants in the Los Angeles elimination races for the big Akron Derby who won places used this equipment on their cars. They certainly help a boy to develop a lot of speed in his racer."

Boys who plan to enter the Harbor District Soap Box Derby should let Judge Lessing, Michael Straszar or Robert Lowell at The Herald know of their intentions to compete before Saturday, Sept. 18. That is the closing date for entries in the community semi-finals.

Early entries in the Lomita division of the Harbor District Derby will be rewarded with special pins, according to H. H. Halladay, secretary of the Lomita Chamber of Commerce. To the first 12 boys completing their speed races for the elimination event Saturday, Sept. 25, and entering them at Shank's hardware store will go the souvenirs of the race.

Halladay intends to ask the cooperation of shop departments of Lomita schools when they open next week. For some of the smaller boys who find construction of their racers difficult, help of school wood shop equipment is expected to be invaluable.

The Lomita elimination race will be combined with that of Torrance, Walteria and Harbor City on Sept. 25. There are two classes for entrants, one for boys between seven and 17 years of age, the other for boys 12 to 15 years of age. The final event will be held in Torrance on Sepulveda boulevard west of Hawthorne avenue Saturday, Oct. 2.
