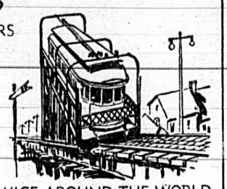
"UNREAL REALITIES"

STREETCARS ON ELEVATORS

So steep are the streets in *Cincinnati, Ohio*, that even the street cars ride up and down the hills on elevators. The city is built on three distinct levels and to facilitate transportation between the different levels an incline railway has been built to lift cars bodily from one to the other.

"ADD-A-ROOM" HOUSE

A wealthy woman believed she'd live as long as she kept adding to her house in *San Jose, California*. So she kept carpenters busy for 38 years constructing the weirdest house in America, an intricate maze of 144 rooms, miles of corridors, gold and silver fixtures, stairways leading nowhere, trapdoors, and blank walls! But she died!



TWICE AROUND THE WORLD

Greyhound Bus Lines serve 50,000 miles of highway routes (more than twice the distance around the earth), travel 138 million miles a year. Greyhound offers more service to more places than any other form of public transportation.

ICE FROM A DESERT

From one of the hottest spots in America comes the coldest known kind of commercial ice. "Dry Ice"—so cold that touching it with your hand gives you a first-degree burn—is made from hot gas from wells in the desert near *Salton Sea, California*, where temperatures skyrocket to dizzy heights.

All Will Raise Fund to Fight Dread Disease

With the undaunted spirit of their own Clark Walker guiding them, Lomita residents are uniting to raise a substantial sum for the National Foundation for Infantile Paralysis next Saturday at four different events.

There will be a church social at the Community church, the President's Ball at the Odd Fellow's Hall on Redondo-Wilmington boulevard, a card party at the Artisans' hall and the Lomita theatre will donate a generous portion of its receipts that night to the fund.

Walker, who has lived all his 20 years in Lomita, contracted the dread disease when he was a Senior at Narbonne high school in October, 1935. But he went on to graduate and is now continuing treatments, a major portion of the cost being met by the proceeds of previous President's Birthday Balls in Lomita.

Coy Farquhar is general chairman for the community's four benefit events. Jack Finn will be master-of-ceremonies at the Ball, Veterans of Foreign Wars and their Auxiliary, are in charge of the card party, Mr. O'Keefe is directing the Lomita theatre show, Mrs. Marie Kerber is publicity chairman. W. A. McVeigh is in charge of tickets and Postmaster Birda Paddock is badge chairman. Francis Hathaway is serving as secretary.

Retired Steel Man On Southland Visit

On his arrival aboard the S. S. Edison City at Los Angeles harbor this morning, Andrew Mathieson, a retired employe of the Carnegie-Illinois Steel Corporation and father of A. R. Mathieson, vice-president of that firm, was met by, William Day, personnel director of Columbia Steel company here, who is showing the visitor some of the Southland's points of interest today.

Canada Building Gains

MONTREAL, (U. P.)— Building contracts awarded in Canada in 1937 amounted to $215,000,000.

Ballroom Dance Classes Held Wednesdays

Classes in ballroom dancing for all ages have been added to regular courses held each Wednesday by the Zabelle Dancing Academy, in McDonald Hall, 1951 Carson. The ballroom classes begin at 5:15 p. m. and include all the new swing movements as well as the more conservative types of dances.

Mr. and Mrs. M. L. Fenwick are visiting with friends here this week. They recently returned from two month's vacation in Louisville, Kentucky. Fenwick is former owner and operator of a shoe repair shop on Sartori avenue.

Woman Driver Hits Car Parked Off Western Ave.

"We thought a bomb had exploded under us," George Springer of 915 B Amapola, told Motor Officer Percy Bennett last Friday afternoon when the officer arrived at the scene of a freak automobile accident on Western near 268th. Springer, his four-year-old son and Bob Shell of 2317 Torrance boulevard, were sitting in Springer's parked Ford sedan when it was struck from the rear by a new Hudson sedan driven by Mrs. Olive G. Turner of Los Angeles.

The Springer car was well off the pavement and its occupants had just returned from a mushroom hunt in the adjoining field. Mrs. Turner said she was unable to explain how her car managed to crack into the other vehicle. Riding with her were three other elderly women who suffered minor cuts and bruises as result of the collision. Both cars were badly damaged. Springer's car, its brakes set, was shoved 30 feet by the impact, Officer Bennett reported.

Eat More Beef Campaign Is On

The desire of housewives for lower meat prices is finding hearty support from what might seem to be unexpected source—the cattle producers and feeders themselves. During the past month a group of the leading raisers and feeders of choice western grain-fed beef in California and Arizona have been meeting to discuss plans for carrying lower beef prices to the consumer. This week they announced they received assurances of cooperation from many meat retailers and they were planning to go ahead as quickly as possible to enlist the support of all retailers to tell the public that more and better western grain-fed beef would be available at new low prices.
