Civic Religious Service Climaxes Factory Frolic Sunday Evening

A representative gathering met Sunday evening at the Civic Auditorium and participated in singing led by Mrs. Marjorie Cook of the high school faculty who also directed the Madrigal Singers. This group made a very decided contribution to the service.

Public issues and their relation to religion made an impressive picture as Rev. J. L. Bogue and Dr. Louis E. Burger related the experiences of the church groups in Los Angeles during the recent Shaw recall and election of Mayor Bowron.

Mayor Tolson was presented as the civic leader who has had the sincerest desire to have the support of the moral leaders in the entire community. Dr. Burger gave special emphasis to the clear record that Torrance has relative to the gambling and other destructive features which thrive in other cities.

Many in the audience were residents who had been active participants in the leadership of the Factory Frolic and at several times reference was made to the success of the project which was supported by the various churches.

These words of John: "He that is of the earth is earthly, and speaketh of the earth: he that cometh from heaven is above all," are the Golden Text in the Lesson-Sermon on "Adam and Fallen Man" on Sunday in all Churches of Christ, Scientist.

One of the Bible selections in verses from the book of Genesis: "In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. And God said, Let us make man in our image, after our likeness. . . So God created man in his own image, in the image of God created he him; male and female created he them. . . And God saw every thing that he had made, and, behold, it was very good. . . But there went up a mist from the earth, and watered the whole face of the ground."

The Lesson-Sermon presents also this verse from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The creations of matter arise from a mist or false claim, or from mystification, and not from the firmament, or understanding, which God erects between the true and false."

SOUTHERN CALIFORNIA ON TREASURE ISLAND I

Presented today by the California State Commission, and H. C. Chambers, Architect of Los Angeles, is the above artist's conception of the exceedingly attractive and unusual building designed to house the exhibits of the Southern Counties at the Golden Gate International Exposition in 1939. One of the largest of the State and County Government buildings, the Southern Counties edifice will comfortably house extensive exhibits—natural resources, recreational, educational—and enclose a large court, impressively displaying plant life typical of the southern portion of California. Adjoining the State Horticultural Building and strikingly illuminated with concealed neon lighting, this outstanding structure will be host to millions of Fair visitors next year.
