Hancock Station - Mullin's Garage CORNER BORDER and TORRANCE BLVD. COMPLETE ONE-STOP MOTOR VACATION SERVICE

Paul's Hancock Service Station and Mullin's Garage offer the only COMPLETE ONE-STOP motor service in town! Motors tuned, brakes and lights adjusted... In fact, a complete garage to take care of every auto need. Paul's Service can lubricate your car, clean your windshield, drain your oil... do everything necessary to start you off on a pleasant, trouble-free vacation or week end trip. COME IN!

THE road that runs by your door has a thousand terminations at as many ideal vacation spots, all of which invite the automobile owner and his whole family to care-free relaxation and wholehearted enjoyment of all their vacation time, weekends and holidays during the approaching season.

And the local Western Auto Manager believes that thousands will respond to this Call of the Open Road, visiting such beauty spots as this placid lake (1), or wherever else their fancy desires, setting up their roadside abode. And, like these fair outing enthusiasts (2), they will be completely at home, no matter where night overtakes them. It is only natural, with so many scenic wonders like the rushing Yellowstone (3) carefully preserved in great National Parks and Forests, that most motorists should prefer camping to all other forms of vacationing. And it is likewise only natural that experienced campers whose

campers are always as enjoyably complete as this one (4) should prefer Western Auto equipment, says the local manager, for they are always sure of dependable quality and greater economy. He urges all campers to inspect their outfits now, to be sure they are in readiness for full enjoyment of every outing trip. As an aid, he offers a free Camp Check list showing all the usual camping necessities.
