### Increase In State Aid to Schools Noted

SACRAMENTO (U.P.)—An increase of 21,829 students in average daily attendance at public schools in the state requires the state to increase its aid to counties for school purposes by 2.8 percent to a total of \$76,784,056 for the 1939-40 fiscal year. Superintendent of Public Instruction Walter F. Dexter reported this week.

The increase is caused entirely by increases in attendance at high schools and junior colleges, Dexter said. The average daily attendance in elementary grades decreased from 687,859 in 1937-38 to 685,362 in 1938-39, a decrease of 2497 or 0.4 percent. State apportionments for elementary schools show a corresponding decrease.

The 1939-40 distribution to Los Angeles county will total \$28,551,413.44 on the basis of average daily attendance for the past year of 254,770 in elementary
