

Examination for Fire Captain Draws Protest

A written protest against the proposed promotional examination for captain of the fire department has been filed with the Civil Service Board by J. E. Jeffery, regional director of the Torrance municipal employees' C.I.O. Union. The notice of the examination was reported posted April 27 with April 30 listed as the last day for filing applications.

Jeffery's protest letter stated that the union holds that the examination should not be held unless all who are eligible "including those in the armed services, have an opportunity to take it under equally favorable conditions."

He wrote that the time between posting and the deadline for applications was insufficient and that applications should be received throughout a three-week period provided by the rules of civil service relating to the fire department.

"The union questions the advisability of calling for a promotional examination for this classification at this time," Jeffery's letter continued, "when the stated reason is to fill temporary vacancies caused by vacations. Since only two men are eligible to fill such temporary vacancies it seems reasonable that such appointments should be made on a seniority basis without the necessity of calling for an examination."

"We understand further that those eligible must have been employed at least three years by the city of Torrance in the fire department. This limits the examination to the two engineers now employed, plus those on leave in the armed services. We were informed by Mr. Walter Bradford (secretary of the Civil Service Board), that at least one fireman on military leave has filed application for the examination."
