**Narbonne Baseball
Line-up Is Picked**

Coach Wayne Sloss has chosen
as his first baseball team the
following Narbonne High school
men:

Catcher, Gene Tinch; pitcher,
Alex Palica; first base, Don
Merrell; second base, Bob
Strohm; third, Eddie Roberts;
shortstop, Bob Hobbs; left field,
Ernie Palica; center field, Jay
Imel, and right field, Tex Roberts.

America's first transcontinental
railway was built in Panama,
spanning the 50-mile isthmus.

**Low Sales Tax
Cost Is Cited**

Astonishing figures on sales
tax revenue and administrative
costs are reported by William
G. Bonelli, fourth district mem-
ber of the state board of equal-
ization, following a survey of
statistics which shows total
sales tax revenue will pass the
billion dollar mark well in ad-
vance of the start of its 12th
year on July 1.

As of Jan. 1, 1944, the tax
has returned a total of \$961,888,
825 since it became effective
July 1, 1944. With an estimated
revenue in excess of \$30,000,000
for the first quarter of this
year, the total was within six
or seven million of the billion
dollar mark on April 1.

"In the 11 years it has been
in force," Bonelli said, "the tax
has shown an annual average
revenue of better than \$91,000,
000, an outstanding mark in the
annals of taxation as much of
this time was marked by the
depression.

"The administrative cost of
the tax throughout the state is
2.0477 percent, leaving practically
98 cents out of each dollar
collected to go into the general
fund, most of it going to the
support of our public educa-
tional system.

"In the fourth district, com-
prising the eight southern coun-
ties, where 54 percent of the
tax is collected, compared to 46
percent in the remaining 50
counties, the administrative cost
has been cut to 1.274 percent,
a record in efficient and econ-
omic taxation which speaks for
itself."

**Local Minister's
Son-in-Law in
Magazine Story**

A recent article in Collier's
weekly by Jim Bishop, entitled
"The Golden Sky Hook," had
this introduction: "The United
States Army now has a com-
plete world airway. It oper-
ates 1,000 stations from East
Maine to Espiritu Santo. They
send out range beams, weather
reports, secret messages and or-
ders to pilots. The story of this
global airway and the proud lit-
tle band of men who built it
is told here for the first time."

In the key executive position
of this organization, known as
the Army Airways Communica-
tions System, is Col. Ivan Far-
man.

Col. Farman is a son-in-law of
the Rev. Benjamin H. Lingens-
felter of Torrance. The col-
onel is known to a number of
local residents and used to visit
here frequently. His station
now is Asheville, N. C.

**L. A. Police Association Camp
For Youth to be Run This Year**

"Hey, kids, have ya heard? Camp Valyermo's going to run again this year!"

Many a boy whose playground
in summer is a hot city street
has greeted with joyful shouts
the news that the boys' vaca-
tion camp at Valyermo has been
reopened. Closed last year, the
camp, sponsored by the Los An-
geles Police Relief Association,
as a crime prevention measure,
will be ready for use by the
time the camping season rolls
around.

City officials who make such
decisions have ruled a few gal-
lons of gasoline could be spared
to make 1,000 boys happy and
keep their minds off the routine
problems that young minds
sometimes cannot solve alone.

Funds From Show
The outing system, one of the
STATE'S SURPLUS GAINS

State Controller Harry B. Riley
announced that the state's
general fund cash excess over
current obligations on March 31,
1944, was \$128,189,603, as com-
pared with an excess of \$121,
420,885 at the end of the pre-
ceding month, and an excess of
\$94,366,240 on March 31, 1943.

is financed almost completely by
the annual police show, proceeds
of which go to aid many other
philanthropies for which tax
funds are not available. The
camp, a CCC establishment, was
started in 1935, and is occupied
for ten weeks in weekly relays
of 100 boys each.

Most of the boys are chosen
by careful method of selection
from among those whose par-
ents cannot afford to send them
on vacations. Practice has been
for local schools and social ag-
encies to nominate 2,000 candi-
dates, final selections being
made after experienced poli-
ce and juvenile investigators have
surveyed the home surroundings
of the candidates.

Most of the boys and girls se-
lected have never had a real
vacation away from home and
many have never spent a night
away from the city.

Valyermo is located 90 miles
east of the City Hall on the
edge of the Mojave desert, at
an altitude of nearly 4,000 feet.
Its climate is quite different
from the cool, damp days on the
coastal plain.

Few of the youngsters who
enjoy a week at Camp Valyermo
become the object of the atten-
tion of juvenile authorities, po-
lice officials say.
