 "Why theme, O God, is for ever and ever: the sceptre of the kingdom is a right sceptre." This verse from the Psalms will be the Golden Text in the Sunday Lesson-Sermon on "Reality" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston.
 A Lesson-Sermon selection from The Acts related that a "man came from his mother's womb" lay "at the gate of the temple which is called Beautiful. . . . Who seeing Peter and John about to go into the temple asked an alms. . . . Then Peter said, Silver and gold have I none; but such as I have give I thee: In the name of Jesus Christ of Nazareth rise up and walk. And he took him by the right hand, and lifted him up; and immediately his feet and ankle bones received strength. And he leaping up stood, and walked, and entered with them into the temple, walking, and leaping, and praising God."
 In "Science and Health with Key to the Scriptures" Mary Baker Eddy says, "Inasmuch as God is good and the fount of all being, He does not produce moral or physical deformity; therefore such deformity is not real, but is illusion, the mirage of error. Divine Science reveals these grand facts."

Meet the "workhorse" of the railroads

Not glamorous, not a "show-off"—the unpretentious box car. You never see it bristling with Sherman tanks, 105 mm howitzers, 10-ton trucks and jeeps, like the flat cars and gondolas. It's just a modest workhorse—doing one of the biggest war transportation jobs of all.

When you see a mile-long string of box cars, just think of this. These plain, unassuming cars are carrying the war to Japan. Inside are airplane engines, parts to outfit ships, medical supplies for our men in the Pacific, millions of tons of foodstuffs and ammunition and small arms.

For nearly all the war cargo that goes to sea, goes by rail first. And this huge transportation job is just as important as fast production in our war factories.

The humble box car best symbolizes the fact that transportation is not the job of one railroad. It's the job of all railroads working closely together—pooling their resources and exchanging equipment and facilities.

That is why you see on Southern Pacific rails the box cars of nearly every railroad in the country—New York Central, Erie, L & N, Illinois Central, Northern Pacific, Union Pacific, Burlington, Rock Island, Pennsylvania, Southern, Western Pacific, and Santa Fe to name just a few.

As the pressure on Japan increases, you will see an increasing number of war freights rolling on Southern Pacific's 15,000 miles of line. That's because Southern Pacific serves the major West Coast ports of embarkation and more military and naval establishments than any other railroad.

When you see these freight cars, representing almost every railroad, let it remind you how all the railroads are working closely together to deliver the stuff our fighting men need—on time!
