This declaration of David in the Psalms will be the Golden Text in the Sunday Lesson-Sermon in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston: "The earth is the Lord's, and the fulness thereof; the world, and they that dwell therein: for the question is, 'Is the Universe, including Man, Evolved by Atomic Force?' is the subject.

According to John's Gospel Jesus' disciples "went over the sea toward Capernaum." And the sea arose by reason of a great wind that blew. So when they had rowed about five and twenty or thirty furlongs, they see Jesus walking on the sea, and drawing nigh unto the ship; and they were afraid. But he saith unto them, It is I; be not afraid. Then they willingly received him into the ship; and immediately the ship was at the land whither they went." Matthew relates, "And great multitudes came unto him, having with them those that were lame, blind, dumb, and maimed, and many others; and cast them down at Jesus' feet; and he healed them."

"Mind's control over the universe, including man, is no longer an open question," but is demonstrable Science," writes Mary Baker Eddy in "Science and Health with Key to the Scriptures." She continues, "Jesus illustrated the divine Principle and the power of immortal Mind by healing sickness and sin and destroying the foundations of death."

## Palmer Nelson Busy Refilling Big Bombers

If the days when he told gas station attendants to "fill 'er up" seem pretty remote to Pte. Palmer O. Nelson, 26, of Torrance, it's probably due to his fast-paced work as refueling technician with a squadron of Seventh AAF Liberator bombers in the Palau's.

Private Nelson does the filling these days. The fuel he uses is 100-octane aviation gasoline. Instead of his favorite convertible, his charges are ten thirsty Liberator's, carrying more than 2000 gallons of fuel each on his squadron's record missions against enemy bases.

Thirty minutes are required for filling each bomber. During this period, Private Nelson must employ every one of a series of special refueling techniques to neutralize the danger of fire. He watches the hoses running from his 4000-gallon tank truck for signs of leaks. The truck itself must be handled with extra skill

to forestal sparks. The technical difficulties of Private Nelson's job are increased by excessive heat. His truck must be kept completely filled or completely empty at all times to prevent his base's high temperatures from creating an explosive gas in unfilled space between the fluid level and the top of the tank.

Private Nelson wears the Asiatic-Pacific ribbon with three battle stars for participating in the reconquest of the Philippines and the Mandated Islands. He entered the Pacific theater a year ago. His wife, the former Jane Crawford, lives at 2213 Cabrillo ave., Torrance. His mother, Mrs. Lillian N. D. Empey, of Portland, N. D. Employee of the National Supply Company, Torrance, before entering the Army, he attended schools in Portland.
